VISION STATEMENT

Excellency in Coordination of Transformative Government
Legislative Agenda

MISSION STATEMENT

To effectively coordinate the formulation and implementation of national government policies and legislations to accelerate the achievement of the National Development Agenda.

CORE VALUES

Whole- of Government

Open Government

Professionalism

Teamwork

Innovativeness

Responsiveness

FOREWORD

This publication, is a result of tireless efforts and fruitful collaborations among dedicated government officials, organizations, and partners, and it marks a pivotal milestone in our nation’s ongoing journey of progress. As we embark on our journey to shape the tomorrow we envision for our people, it is with a great sense of purpose and commitment to that journey that we have crafted a comprehensive strategy aimed at addressing the pressing issues facing our society and anchoring our transformative agenda firmly in law.

I wish to thank His Excellency the President Dr. William Samoei Ruto for his leadership in firmly anchoring the country’s national development agenda on the transformative Bottom-Up Economic Transformation Agenda (BETA). This visionary approach places grassroots empowerment, economic inclusivity, poverty alleviation and the faithful implementation of our Constitution at the forefront. It did not escape His Excellency the President’s mind that to deliver BETA, the country required a coordinated government legislative agenda (GLA).

His Excellency the President ensured that the Government of Kenya, for the first time in history, established a framework that drives a structured engagement between the Executive and Parliament for the delivery of the government’s policy and legislative aspirations. This framework therefore is underpinned by the coordination of the Government Legislative Agenda as a key function and driver of government operations, programmes and projects; the establishment and operationalization of the State Department for Parliamentary Affairs as well as the Steering Committee on the Government Legislative Agenda and Parliamentary Liaison.

Further, His Excellency the President, in his wisdom and in appreciation of the Parliament’s constitutional role in overseeing the Executive, has been very deliberate in enhancing Government’s openness and accountability. By making a strong case for the re-introduction of Cabinet Secretaries’ Question Time in plenary of both Houses of Parliament, His Excellency the President not only expanded the landscape of Parliament’s oversight mandate but also provided the Executive a platform to expound Government policy on various issues of public interest. It is therefore my commitment to see to it that the GLA serves its intended purpose as a formal testament of the policy and legislative initiatives that the Government intends to see through in order to actualize the promises to the people of Kenya as espoused under BETA.

As we delve into the intricacies of the legislative priorities of the GLA, it becomes evident that it mirrors our unwavering commitment to the enhancement of governance, the preservation of the rule of law, and the advancement of the principles of devolution. It embodies our unwavering determination to foster an environment where every Kenyan can not only survive but also thrive. By creating a legal framework that devolves resources and decision-making power to the grassroots level and through targeted support programs, access to finance, and capacity-building initiatives, we aim to create an enabling environment for small-scale enterprises to thrive and grow so that we unlock the potential of every region in Kenya and ensure that no one is left behind.

At the heart of this GLA publication, we underscore our devotion to addressing the critical challenges that confront our nation. By enacting policies and laws that facilitate positive change, we express our commitment to a brighter, more prosperous future. By leveraging the synergies between our legislative initiatives and the strategic imperatives of Vision 2030, we can accelerate progress towards realizing our national development goals. Moreover, as Kenya contributes to shaping the legislative landscape at home, it has been crucial to situate our efforts within the broader context of Africa Union Agenda 2063. By aligning our policies with continental priorities such as infrastructure development, human capital investment, and trade facilitation, we are able to strengthen Kenya's role as a key player in Africa's quest for sustainable development.

I urge everyone to embrace the contents of this publication and join us in its implementation. Together, we can breathe life into our shared vision of a Kenya where every citizen has the opportunity not only to flourish but also to make profound contributions to the growth and development of our cherished country. As we reflect on Kenya's journey towards economic transformation, it is clear that embracing a Bottom-up Economic Model is not just a policy choice – it is a moral imperative. By placing people at the centre of our development agenda and prioritizing inclusivity and sustainability, we can build a more prosperous future for all Kenyans. Through bold reforms, strategic investments, and stakeholder engagement, we are confident that Kenya will emerge stronger and more resilient than ever before.

This endeavour would not have been possible without the collaborative efforts of various government offices and the generous support of various development partners and well-wishers. Special thanks to the State Department for Parliamentary Affairs for its ongoing day to day dispatch of the GLA Programme. Special appreciation to the Office of the President, the Office of the Deputy President, the Office of the Attorney General, the National Treasury and Economic Planning and the State Departments and SAGAs under them. To all those who contributed to this monumental achievement, I extend my heartfelt gratitude.

As we move forward, remember the words of Mzee Jomo Kenyatta, Kenya's founding father and first President, who said, "Our children may learn about the heroes of the past. Our task is to make ourselves the architects of the future." With these words in our hearts and the GLA publication in our hands, let us push forward with determination and unity, knowing that our collective actions today will shape the tomorrow we envision for generations to come.

Sincerely,

*H.E Dr. Musalia Mudavadi., EGH
Prime Cabinet Secretary and Cabinet Secretary
Ministry of Foreign & Diaspora Affairs
Executive Office of the President*

PREFACE AND ACKNOWLEDGEMENT

In the pursuit of a prosperous and sustainable future for Kenya, it is imperative to have a well-defined legislative agenda that aligns with the country's long-term development goals. I am therefore honoured to present the Government Legislative Agenda (GLA) Schedule, which represents the culmination of a remarkable journey undertaken by the Government. The genesis of this publication can be traced back to the status questionnaire and the subsequent successful GLA roundtable discussions with State Departments on their ongoing and proposed policy and legislative initiatives.

The roundtable discussions marked a significant milestone in our ongoing efforts to consolidate the National Government's Legislative Agenda. This initiative aligns with the provisions of Executive Order No. 2 of 2023, which mandates the Prime Cabinet Secretary to coordinate the implementation of the National Government's legislative agenda across all ministries and state departments. The GLA is at the core of realizing the Administration's flagship Bottom-Up Economic Transformation Agenda (BETA), designed to propel our nation to greater heights.

In executing this mandate and in the spirit of the Whole-of-Government Approach, the State Department for Parliamentary Affairs (SDPA) collaborated closely with a multi-agency validation panel. The membership of this panel was drawn from various offices of Government including the Executive Office of the President (EOP), the Office of the Deputy President (ODP), the Office of the Prime Cabinet Secretary (OPCS), the State Law Office (SLO), the National Treasury, the State Department for Devolution (SDD), the State Department for Performance and Delivery Management (SDPDM), the Kenya Law Reform Commission (KLRC), the Kenya Institute of Public Policy Research and Analysis (KIPPRA), the Government Delivery Services (GDS) and the Inspectorate of State Corporations (ISC). The SDPA is indebted to them for nominating their officers into the inter-agency GLA panel that was constituted to support the OPCS in the GLA Roundtables and the eventual establishment of the GLA Schedule.

The GLA roundtable discussions extended over twenty (20) days, involving 50 State Departments categorized into five MTPIV Clusters: Infrastructure, Social Sector, Finance and Production, Environment and Natural Resources, and Governance and Public Administration. Throughout this extensive process, we gained a profound understanding of the intricacies involved in coordinating the Government Legislative Agenda. This experience also underscored the meticulous planning required to ensure alignment of policies and laws with the functions mandated by the Fourth Schedule of our Constitution to the two levels of Government.

The creation of this GLA publication represents an unprecedented milestone in the Republic of Kenya and in the African continent. This publication will serve as the official repository of National Government policy and legislative reform initiatives, underscoring our commitment to enacting policies and laws that address the

pressing challenges facing our nation as well as the realization of our vision for socio-economic development. This publication highlights the legislative priorities that will support the Government's overarching goals and development priorities and propel Kenya towards a more equitable and prosperous future. It underscores the importance of collaboration between government departments, legislative bodies, and stakeholders at all levels to ensure effective implementation of policies that benefit all Kenyans.

Our nation's current development agenda is firmly anchored in the Bottom-Up Economic Transformation Agenda (BETA), emphasizing grassroots empowerment, economic inclusivity, poverty alleviation, and the faithful implementation of our Constitution. In our crafting of this publication, we diligently assessed whether the proposed initiatives genuinely align with BETA and whether they do so as a matter of priority.

Throughout the process, our team engaged in robust discussions, shared valuable insights, and leveraged their diverse skill sets to fulfil this unique mandate. This publication will therefore serve as a roadmap for policy makers, stakeholders, and citizens alike to engage in constructive dialogue, collaboration, and action towards realizing our collective vision for a prosperous and inclusive Kenya.

I extend my heartfelt appreciation to all those who have contributed to this remarkable journey. The SDPA is in particular indebted to the Prime Cabinet Secretary, H.E Dr. Musalia Mudavadi., EGH, for his valuable insights and guidance throughout the entire process. I acknowledge with much gratitude my colleague Principal Secretaries who participated in the GLA Roundtables and the validation exercise that took place after the issuance of the 1st draft of this publication.

The SDPA is grateful for the great technical support provided by members of the inter-agency GLA panel composed of the following members: Mr. Nick Biketi, Mr. Zachary Mwangi, Mr. Henry Obino, Mr. Richard Miano, Ms. Carolyn Chilango, Mr. Kiprop Murrirroi, Mr. James Odongo, Mr. Joseph Warwimbo, Ms. Jemimah Mbae, Mr. Michael Mbuvi, Ms. Monicah Njoroge, Mr. Nehemiah Moronge, Ms. Valerie Luvonga and Mr. Fidel Salach (SDPA); Ms. Anne Olubendi, Mr Dan Ameyo, Ms. Rinah Ondego, Mr. Samuel Karanja, Mr. Jamshed Ali and Mr. Musa Machooka (OPCS); Mr. Bongo Wekesa (SDPDM); Mr. Kisabit Kiprop and Mr. George Tarus (EOP), Mr Lawrence Nyaguti and Ms. Rose Gathuthi (ODP), Mr. Samson Maundu, Mr. Seldon Besigen and Ms. Winnie Sian Sankale (SLO); Ms. Mary Nguli, Mr Geoffrey Momanyi and Mr. Dennis Olila (the National Treasury); Ms. Peris Nyawira and Mr. Charles Mugecha (SDD); Dr. Moses Njenga, Dr. John Karanja and Mr. Boaz Munga (KIPPPRA); Mr. Mathew Kimanzi and Ms. Damaris Mukala (KLRC); Ms. Asaaska Labarakwe, Mr. Peter Kitheka, Ms. Irene Leluata, Ms. Brigid Nzioka and Ms. Carol Munga (GDS); and Mr. James Wang'ombe (ISC).

Last but not least; we appreciate the invaluable support we received from our development partners especially UKaid through the Foreign, Commonwealth and Development Office's (FCDO) Kenya Devolution Programme - Timiza Ugatuji implemented by Act Change Transform (Act!) and Dr. Wilfred A. Mutubwa OGW FCI Arb C. Arb for their support in the process of developing the GLA Schedule as well as the design, editing, and printing of this publication.

The best way to predict the future, is to create it together. I'm honoured to have led the team that, brick by brick, piece by piece put together the architecture of the GLA that is now a critical tool in the delivery of the national development agenda (BETA).

Sincerely,

CPA Dr. Aurelia Chepkirui Rono., CBS
Principal Secretary
State Department for Parliamentary Affairs

EXECUTIVE SUMMARY

A “legislative agenda” is defined to mean “a program of proposed legislation to support the policies and programs of government.” As a new phenomenon in the Government of Kenya, the ascertainment and coordination of the National Government’s Legislative Agenda under the GLA Programme has been proffered as a worthy tool in the expedited delivery of Kenya’s development agenda.

It is against this background that the engagement of Ministries and State Departments to ascertain their ongoing and proposed policy and legislative initiatives has been important. The results of the engagement are set out in this publication and shall constitute the National Government’s Legislative Agenda for the period 2023/24 - 2027/28.

In summary, the outline of this publication is as follows -

Chapter One gives an introduction which consists of a background of the GLA, its rationale, objectives and scope as well as the prevailing development frameworks against which the GLA is being coordinated. It also briefly narrates the methodology undertaken to ascertain the Government’s Legislative Agenda and coming up with the Schedule of initiatives.

Chapter Two focuses on the policy and legislative initiatives within the scope of the GLA Programme. The Chapter also dwells on prioritization and with it recommends a prioritization criterion, the weighting of each criteria and eventual ranking of the initiatives. All initiatives are ranked as either Immediate, High or Medium priority.

Chapter Three deals with the institutional arrangements for the coordination and implementation of the GLA Programme. This institutional framework includes the OPCS, the SDPA and the Steering Committee on the GLA and Parliamentary Liaison. It also stresses the importance of the Parliamentary liaison to the GLA Programme which includes the centrality of the Parliament Party/Coalition Leaders in the delivery of the GLA under the Parliamentary Liaison Framework. In addition, the Chapter provides for tracking and reporting of progress of the implementation of the GLA. It also appreciates that circumstances may necessitate the formulation of an initiative that wasn’t there as at the inaugural date and thus provides room for a supplementary GLA.

CHAPTER ONE: INTRODUCTION

This Chapter provides the background of the GLA, its rationale, objectives and scope as well as the prevailing development frameworks against which the GLA is being coordinated.

1.1 Background of the GLA

The Office of the Prime Cabinet Secretary (OPCS) was established under the Executive Order No. 1 of January 2023 on Organization of the Government of the Republic of Kenya.

The OPCS is mandated under Executive Order to amongst other functions, coordinate the implementation of the national government's legislative agenda across all Ministries and State Departments in consultation with, and for transmission to the Party/Coalition Leadership in Parliament.

The function is informed by the need to create synergy in the processes of development of policy and legislation at the national level and for the purpose of supporting the implementation of the national development agenda.

In coordinating the GLA, the OPCS institutionalizes the principles of the 'Whole-of-Government (WoG)' and 'Open-Government (OG)' approaches in Government workplaces and in delivery of public services. The principles aim at creating and improving synergies, transparency, accountability and public participation within and among MDAs towards breaking existing silos.

WoG is a strategic approach that emphasizes on collaboration and coordination across all MDAs. It seeks to break down silos, improve efficiency, eliminate duplication, enhance the effectiveness of government initiatives, as well as promote integrated and holistic governance. Adopting a WoG approach is vital for OPCS given its mandate is to oversee the coordination of the development of policies and legislation across MDAs. Bringing together all MDAs under a cohesive strategy will enhance seamless development of policy and legislation which is vital for the successful realization of national development agenda.

The Open Government is an approach that emphasizes on transparency, accountability, citizen engagement, and collaboration in government activities. To promote the OG, the OPCS will make policy and legislative information accessible to the public. This transparency will foster trust and allows citizens to actively participate in the democratic process by understanding and contributing to legislative, governance and development matters. OG principles will also encourage the sharing of data and information across MDAs, which is crucial for the coordination role of the Office.

1.2 Rationale

The Prime Cabinet Secretary is vested with the mandate to coordinate the implementation of the National Government's legislative agenda across all Ministries and State Departments in consultation with and for transmission to the party/coalition leadership in Parliament. This mandate is domiciled at the SDPA within the OPCS.

The hitherto absence of a coordination framework has resulted in uncertainty of the totality of initiatives being pursued by the National Government. It has also encouraged overlaps, duplicities, and inter-framework conflicts with ramifications on utilization of allocated funds, haphazard efforts in supporting the National Development Agenda as well as exposure of reform efforts to natural attrition and the unintended consequences of reorganization of government. Further, evidence abound on the tendency of MDAs proposing initiatives that have previously been effectively addressed in existing policy and legislative frameworks.

The GLA Programme is critical due to the overarching need to ensure a coordinated delivery of policy and legislative initiatives necessary to implement the country's priorities, to streamline the prioritization of processing of necessary legislation, enhance effective and timely realization of supportive policy and legislative frameworks, forestall wastages occasioned by duplication of efforts and enhance efficiencies.

1.3 Prevailing Development Frameworks

The GLA Programme is developed in the context of global, regional and national development frameworks and priorities that play a pivotal role in shaping the future of the nation. Specifically, the Publication appreciates the agendas and aspirations of the United Nations 2030 Agenda for Sustainable Development; African Union Agenda 2063; East Africa Community Vision 2050; Constitution of Kenya; Kenya Vision 2030; Fourth Medium Term Plan; and Bottom-Up Economic Transformation Agenda (BETA). The aspirations and agendas are interconnected and outline strategies for inclusive growth, poverty reduction, and job creation to foster sustainable development and prosperity.

1.3.1 United Nations 2030 Agenda for Sustainable Development

The Sustainable Development Goals (SDGs) are a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity. The Office of the Prime Cabinet Secretary's mandate and the GLA Programme are vital instruments in contributing to the attainment of the Sustainable Development Goals (SDGs). Moreover, by effectively coordinating the GLA, the OPCS indirectly contributes to addressing a range of SDGs that encompass various aspects of national development and well-being. Specifically, the OPCS's role aligns with specific SDGs as summarized below:

- Goal 10 Target 2 aims to "empower and promote the social, economic and inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion, economic or other status": The OPCS will ensure that all the MDAs work in synergy to ensure that no Kenyan is left behind and there is full participation of stakeholders in determining and implementing policies and requisite legislation thus contributing to the achievement of SDG 10;
- Goal 16 Target 6 is to "Develop effective, accountable and transparent institutions at all levels": The OPCS' role in coordinating legislative affairs will contribute to developing effective, accountable and transparent institutions. In addition, the OPCS will institutionalize the culture of Open Government which will enhance transparency, accountability, and participation that fosters democracy an inclusive growth therefore contributing to the achievement of SDG 16.
- Goal 17, Target 14 is to "Enhance policy coherence for sustainable development": The OPCS is charged with the responsibility of developing and coordinating the identification, prioritization and formulation of policies necessary to achieve the national Government development agenda. In executing this role, the OPCS will contribute to this goal as it will ensure that the policies in place are relevant, comprehensive and responsive in the implementation of the national development agenda.
- Goal 17 target 16 is to "Enhance the Global Partnership for Sustainable Development, complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology and financial resources, to support the achievement of the Sustainable Development Goals in all countries, in particular developing countries": By fostering collaboration among government agencies and promoting whole-of-government approaches, the OPCS will contribute to this goal, which aims to strengthen global partnerships for sustainable development.

The OPCS will work with local, regional and international policy makers in organizations, governments and the private sector and convene appropriate collaboration platforms towards improving the development and implementation of policies and legislation that are geared towards national prosperity and better regional and international collaboration.

1.3.2 African Union Agenda 2063

African Union's Agenda 2063 is Africa's strategic framework that aims to deliver on its goal for inclusive and sustainable development. The OPCS, through its mandate and the GLA Programme, plays a crucial role in the achievement of the aspirations of the African Union Agenda 2063. This agenda envisions a united and prosperous Africa, and the office's functions align with the following key aspirations:

- Aspiration No.1 on "A Prosperous Africa based on Inclusive Growth and Sustainable Development": The OPCS GLA Programme provides an inclusive coordination framework for implementation and evaluation of policies and legislation towards attaining a diversified, transformed economy with sustained growth;
- Aspiration No.3 on "An Africa of Good Governance, Democracy, Respect for Human Rights, Justice and the Rule of Law": The OPCS will focus on entrenching good governance and transformative leadership through the 'Whole-of-Government' and 'Open Government' approach in defining, developing and evaluating policies and legislation;

- Aspiration No. 7 on “Africa as a strong, united, resilient and influential global player and partner”: The OPCS will steer the development of policy and legal frameworks to collaborate with continental peers in defining unified management of global affairs and improving common African markets such as the Continental Free Trade Area;

1.3.3 East Africa Community Vision 2050

The EAC Vision 2050 is a long-term development blueprint aimed at transforming the East African Community into an upper – middle income region within a secure and politically united East Africa based on the principles of inclusiveness and accountability by the year 2050. The GLA Programme will ensure that the following common aspirations of the EAC Vision 2050 are mainstreamed during implementation:

- Enhanced inclusiveness in development and socio-economic transformation: -The OPCS will undertake its mandate in a stakeholder-driven and participatory manner. The OPCS will also prioritize inclusive policy and legislative frameworks to spur national development and deepen cooperation among the EAC partner states. Additionally, the OPCS will partner in monitoring and offering coordination support for the trans-national policies and legislation that have been identified to physically link and socially integrate the EAC partner states.
- Building sound economic institutions, legal and policy frameworks needed for the long-term socio-economic transformation: – Building a stronger EAC requires individual efforts from partner states. Kenya is implementing BETA that targets to empower the majority of the low-income earners. The OPCS will ensure that this is replicated at the regional level by advocating for integrated policies and legislation, that empower citizens and conducive for MSMEs to thrive.

1.3.4 Constitution of Kenya

The Constitution of Kenya is the supreme law of the Republic and binds all persons and all State organs at both levels of government. The GLA Programme aims at upholding and implementing the provisions of the Constitution of Kenya by, inter alia, specifically recognizing constitutional implementation as a priority criterion. In addition, the GLA Programme seeks to call for fidelity to Article 10 of the Constitution which outlines the national values and principles of governance, which include democracy, rule of law, transparency, accountability, participation of the people and inclusivity.

1.3.5 Kenya Vision 2030, Fourth Medium Term Plan and the Bottom-Up Economic Transformation Agenda

The Kenya Vision 2030 is the long-term development blueprint which seeks to transform the country into a newly industrialized and globally competitive middle-income country, providing a high quality of life to all its citizens by the year 2030. Kenya Vision 2030 has been implemented in 5-year successive Medium-Term Plan (MTPs) since 2008. The MTP IV (2023-2027) will implement the fourth and second-last phase of Kenya Vision 2030 which coincides with the current GLA Programme period.

MTP IV sets the momentum for transition to the next long-term development agenda for the country and aligns with Bottom-Up Economic Transformation Agenda (BETA) as well as other regional and international economic development frameworks. The GLA Programme will support implementation of the MTP IV (2023-2027) through the prioritization and co-ordination of policy and legislative initiatives captured under MTPIV.

The BETA is a strategy by the government which is geared towards economic turnaround and inclusive growth, and aims to increase investments in five priority sectors. The priority sectors that form the core pillars of the Plan include: Agriculture; Micro, Small and Medium Enterprise (MSME) economy; Housing and Settlement; Healthcare; Digital Superhighway and Creative Economy. The GLA Programme prioritizes BETA aligned policy and legislative initiatives for the purpose of promoting the achievement of the projects and programmes in the BETA priority areas.

1.3.6 Key Policy and Legal Documents

The GLA Programme is anchored on various government policies and legal documents. Among such documents include: Executive Order No. 1 of 2023 on Organization of the Government of the Republic of Kenya; Constitution of Kenya; the National Government Coordination Act, Public Finance Management Act 2015, State Corporations Act 1986 and the Leadership and Integrity Act 2012, among others. The policy and legal documents establish a comprehensive framework that highlights the focus areas to be addressed by the OPCS. Moreover, they serve as a guide for directing the execution of the OPCS GLA Programme, aligning it with the goals and priorities of the national development agenda.

1.4 Methodology of Developing the Government Legislative Agenda Schedule

The OPCS commenced the process of implementing the GLA coordination function by first establishing the status of the GLA through the formulation and dissemination of a Status Audit Questionnaire. The Questionnaire was transmitted to Ministries and State Departments on 17th January, 2023. The SDPA analyzed the responses and prepared a consolidated inventory of the ongoing and proposed policy and legislative initiatives.

The SDPA thereafter convened round-table discussions with the State Departments on the exhaustiveness, correctness and accuracy of the most current status of the consolidated inventory. The discussions also dwelt on State Department priorities, funding, implementation road-maps as well as challenges impeding the realization of the initiatives.

These roundtables were held between 24th July, 2023 - 25th August, 2023. The SDPA was supported by a Multi-Agency Validation Panel that consisted of officers from EOP, ODP, OPCS, SLO, the National Treasury, SDD, SDPDM, KLRC, KIPPRA, GDS and ISC.

A report writing retreat was thereafter held from 11th -20th October, 2023. During the retreat the writing team conducted a thorough assessment of the presentations, prepared a prioritization criterion and made various findings and recommendations which have greatly enriched the GLA coordination function.

In addition, the 1st Draft of the GLA publication was shared with the Prime Cabinet Secretary, the Principal Secretary SDPA and the various State Departments for review. In addition, the Steering Committee for the Government Legislative Agenda and Parliamentary Liaison was apprised of it after which the draft was subjected to MDA validation. The inputs received were considered in developing the final draft of the GLA Schedule.

CHAPTER TWO: POLICY AND LEGISLATIVE INITIATIVES

The Chapter provides a breakdown of all documented ongoing and proposed policy and legislative initiatives across Ministries and State Departments and their prioritization according to a determined Prioritization Criteria.

2.1 Reported Policy and Legislative Initiatives

Set out under Annex I to this Publication are the reported policy initiatives while Annex II sets out the reported legislative initiatives. Annex III includes the Reported Statutory Instruments.

2.2 Priority List

The Reported Initiatives have been prioritized in accordance with the Prioritization Criteria shown in Table 2.1.

Table 2.1: Prioritization Criteria

S/No	Prioritization Criteria	Weight
1.	Enhances Value Chain and Linkages to BETA	3
2.	Pursuant to a Cabinet/Presidential Directive	3
3.	Status (Advanced i.e. at Parliament, Cabinet, AG's or awaiting AG's or Cabinet's consideration)	3
4.	Part of global and regional legal requirements or mandatory compliance with global best practice	2
5.	Furtherance of and implementation of the Constitution	2
6.	Priorities of MTPIV of Vision 2030	2
7.	Status (Medium i.e. validation, public participation, stakeholder engagement)	2
8.	Commitment in the FY 2023/24 Performance Contract	1
9.	Furtherance of the MDA's core mandate	1
10.	Status (Early stage i.e. Conceptualization, Drafting Stage)	1

The above weighting resulted into three major categorizations as shown in Table 2.2 together with their proposed delivery timelines:

Table 2.3 shows a summary of the prioritization of the 772 GLA items submitted by the MDAs.

Priority Ranking	Aggregate Weight Range	Delivery Timelines
Immediate	13 - 17	6 Months
High	9 - 12	12 Months
Medium	1 - 8	24 Months

Table 2.3: Summary of GLA prioritization

Type of Intervention	Priority Category			Total Number of Interventions By Type
	Immediate	High	Medium	
Legislative Initiatives	19	119	106	244
Policy Initiatives	13	85	105	203
Statutory Instruments	15	172	138	325
Total Number of Interventions By Priority Category	47	376	349	772

For each of the proposed policies, legislation and statutory instruments, three categorizations based on the prioritization criteria shown in Table 2.1 are produced as presented in the next three tables.

Table 2.4: Prioritization of policy initiatives by Clusters

Cluster	State Department	Proposed Policy Initiative
Immediate Priority Category		
Environment & Natural Resources	Blue Economy and Fisheries	Kenya Fisheries Policy 2023 (formerly National Oceans and Fisheries Policy 2008).
Environment & Natural Resources	Environment and Climate Change	Meteorology Policy
Finance & Production	Agriculture	Coffee Industry Policy
Finance & Production	Agriculture	National Agriculture Mechanization Policy
Governance & Public Administration	Immigration and Citizen Services	Kenya National Immigration Policy
Governance & Public Administration	Immigration and Citizen Services	The National Visa Free Policy
Governance & Public Administration	Internal Security and National Administration	Crime Management and Prevention Policy
Governance & Public Administration	Internal Security and National Administration	National Policy on Alcohol and Drug Abuse
Governance & Public Administration	Internal Security and National Administration	National Policy on Peace Building and Conflict Management
Governance & Public Administration	Internal Security and National Administration	National Policy on Small Arms and Light Weapons
Governance & Public Administration	Internal Security and National Administration	NPS Policy on Police Reforms
Governance & Public Administration	Internal Security and National Administration	Policy on Private Firearm licensing
Infrastructure	Lands and Physical Planning	The National Land Surveying and Mapping Policy
High Priority Category		
Environment & Natural Resources	ASALs and Regional Development	National Policy for Sustainable Development of ASALs
Environment & Natural Resources	ASALs and Regional Development	National Policy for Sustainable Development of ASALs
Environment & Natural Resources	Blue Economy and Fisheries	National Aquaculture Policy
Environment & Natural Resources	Culture, the Arts and Heritage	Kenya Bead craft Industry Policy
Environment & Natural Resources	Culture, the Arts and Heritage	Natural Product Industry Policy
Environment & Natural Resources	Culture, the Arts and Heritage	Records Management Policy
Environment & Natural Resources	Forestry	National Forest Policy

Environment & Natural Resources	Tourism	National Tourism Policy 2010.
Environment & Natural Resources	Wildlife	Integrated Natural resource management policy
Environment & Natural Resources	Wildlife	Investment policy
Finance & Production	Agriculture	Food Safety Policy
Finance & Production	Agriculture	National Agricultural Research System Policy
Finance & Production	Agriculture	Seed Policy
Finance & Production	Agriculture	Sugar Industry Policy
Finance & Production	Agriculture	Tea Industry Policy
Finance & Production	Economic Planning	Economic Planning Policy
Finance & Production	Economic Planning	Implementation of AU Agenda 2063 Policy
Finance & Production	Economic Planning	National Policy on Official Statistics
Finance & Production	Economic Planning	Sessional Paper No.1 of 2023 on Population Policy for Sustainable Development
Finance & Production	Industry	Industrialization Policy(review)
Finance & Production	Industry	National Automotive Policy
Finance & Production	Industry	National Quality Infrastructure Policy [now Kenya Quality Policy]
Finance & Production	Livestock Development	The Food and Feed Safety Control Policy
Finance & Production	Micro Small and Medium Enterprises Development(Msme)	MSE Policy
Finance & Production	The National Treasury	Leasing Sector Framework

CHAPTER THREE: IMPLEMENTATION AND COORDINATION FRAMEWORK

The Chapter outlines the framework under which the GLA is to be coordinated. This includes the organizational inter-relationships within the National Executive as well as with the cabinet approved framework for the coordination of government business specific to the GLA and Parliamentary Liaison.

3.1 The Office of the Prime Cabinet Secretary

The Office of the Prime Cabinet Secretary is established with the mandate to, inter alia, assist the President and the Deputy President in the coordination of Government Ministries and State Departments and; coordinate the implementation of the national government legislative agenda in consultation with and transmission to the Party/Coalition Leadership in Parliament. As chair of the Steering Committee on the Government Legislative Agenda and Parliamentary Liaison, (SCoGLA&PL), the Prime Cabinet Secretary gives the overall policy direction in the coordination of the GLA and parliamentary liaison.

The OPCS is supported in the GLA coordination function by the SDPA.

3.2 State Department for Parliamentary Affairs

SDPA supports the Prime Cabinet Secretary in the day-to-day coordination of the GLA and Parliamentary Liaison. In appreciation of the role that policy plays in identifying areas of legislative review, SDPA also comprises policy coordination and strategy as a critical component of its mandate. The SDPA functions are as outlined below; -

1. Co-ordinate the identification, prioritization and enactment of policies and legislation necessary to achieve the national development Agenda;
2. Provide timely guidance and direction on the appropriate measures to be undertaken to address challenges constraining the realization of the legal framework, necessary to achieve the national government development Agenda;
3. Oversight to ensure public participation and the involvement of other stakeholders in the development of policies and legislation by MDAs;
4. Monitor and evaluate the progress of policy and legislative initiatives for the timely realization of the government development agenda;
5. Co-ordinate parliamentary liaison services across MDAs;
6. Facilitate seamless interaction between the Executive and Parliament to ensure effective and harmonious dispatch of Government business in Parliament;
7. Collaborate with MDAs and other relevant institutions to build capacity on policy and legislation making processes and parliamentary liaison; and
8. Collaborate with Parliament to enhance accountability of MDAs.

The State Department comprises of two (2) technical Directorates, namely: Legislative and Parliamentary Affairs and Policy Coordination and Strategy.

3.3 The Steering Committee on the Government Legislative Agenda and Parliamentary Liaison

In its meeting of 31st January, 2023, the Cabinet approved the establishment of the Steering Committee on the Government Legislative Agenda and Parliamentary Liaison. Pursuant to a Cabinet Directive of the same meeting, the Prime Cabinet Secretary issued Guidelines dated April 2024 on the Framework for Coordination and Supervision of Government Business across MDAs. The Guidelines provide, inter alia, on the Steering Committee's Establishment, Composition, Functions, Sub-Committees, Secretariat and Meetings.

The Steering Committee supports the PCS and the SDPA in their mandates and represents the WoG approach to the coordination of the GLA and Parliamentary Liaison. With it the Steering Committee is vested with the following supportive mandate -

1. Provide timely guidance and direction on the appropriate measures to be taken to address the challenges constraining the realization of the legal framework necessary to achieve the National Government Development Agenda;
2. Monitor and evaluate the progress of policy and legislation to ensure the objectives of the National Government intended in the legal framework are met in good time and are constitutional; and
3. Any other function ancillary to the above as may be directed by His Excellency the President

The Steering Committee consists of -

- i. The Prime Cabinet Secretary as the Chairperson;
- ii. The Attorney General as the Vice Chair of the Committee;
- iii. Cabinet Secretary for the National Treasury and Economic Planning;
- iv. Cabinet Secretary(s) responsible for the Ministry under which the legislative agenda item emanates;
- v. Other Cabinet Secretaries to be co-opted as and when the circumstances warrants;
- vi. The Principal Secretary, State Department for Parliamentary Affairs as the Secretary of the Committee; and
- vii. Chief Executive Officers of State Corporations to be co-opted on a need basis.

The SDPA provides secretariat services to the Steering Committee, assigning such support staff as may be necessary for the Steering Committee to effectively perform its functions.

3.4 Liaison with Parliament

The Constitution of Kenya vest in Parliament the mandate of law-making, oversight and representation of the people. Article 94(5) of the Constitution provides that “No person or body, other than Parliament, has the power to make provision having the force of law in Kenya except under authority conferred by this Constitution or by legislation.” Liaison with Parliament is therefore critical in delivering the GLA.

Liaison with Parliament for the effective dispatch of the GLA is principally through the Coalition/ Party Leadership in both Houses of Parliament and as guided under the envisaged Parliamentary Liaison Framework.

3.5 Tracking and Reporting

As part of the execution of the day to day coordination function, the SDPA is overseeing the development of a framework for monitoring, tracking and reporting of the implementation of the GLA. The framework consists, amongst others, the development and sensitization of –

- a) The Guidelines for the Development of National Government Policy and Legislation;
- b) A template for quarterly reporting on the progress of development of the policy and legislative initiatives;
- c) The Legislative Agenda Information Tracking System (LATIS); This system shall allow for the digital and real-time tracking and reporting of progress of the GLA.

The framework shall enable the effective and efficient preparation of the periodic reports on the

status of implementation of the GLA.

3.6 Supplementary GLA

The GLA contains a comprehensive schedule of all reported policy and legislative initiatives as at date (February 2024). It is however appreciated that circumstances may necessitate the formulation of an initiative not noted herein at date. In that eventuality, the Principal Secretary responsible for the sponsoring MDA shall notify the OPCS of such an initiative at the conceptualization stage. The Initiative shall constitute part of the Supplementary GLA.

Notice of additional initiatives shall be addressed to –

*Principal Secretary
State Department for Parliamentary Affairs
Office of the Prime Cabinet Secretary
Railways Headquarters
Off Haile Selassie Avenue
NAIROBI*

ANNEX I: POLICY INITIATIVES

No.	Cluster	State Department	Initiative	Objectives/Justification
1.	Environment & Natural Resources	ASALs and Regional Development	National Policy for Sustainable Development of ASALs	<ul style="list-style-type: none"> - To Strengthen peace and security management to enhance co- existence amongst the ASALs communities in Kenya and across borders; - To provide an enabling environment for sustainable development in the ASALs by establishing the necessary foundations and bridging the development gaps; - To provide policy frameworks for management of drought; and - To promote sustainable utilization of existing land and land-based resources to facilitate economic development in the ASALs.
2.	Environment & Natural Resources	ASALs and Regional Development	National Relief Assistance Policy	<ul style="list-style-type: none"> - To strengthen humanitarian relief assistance structures both at the national and county levels; - To streamline resourcing and accountability of relief assistance by National Government, County Governments, and development partners; and - To strengthen institutional and legal framework for humanitarian emergency relief assistance and provide guidelines for management of humanitarian relief assistance.
3.	Environment & Natural Resources	ASALs and Regional Development	Regional Development Policy	<ul style="list-style-type: none"> - To provide an overarching framework that will facilitate evenly distributed growth across the country. - To actualize Sustainable exploitation, utilization and management of the basin based natural resources and employment and wealth creation for local and national socio-economic development
4.	Environment & Natural Resources	Blue Economy and Fisheries	Kenya Fisheries Policy 2023 (formerly National Oceans and Fisheries Policy 2008).	<ul style="list-style-type: none"> - To provide a broad policy framework for the management and development of fisheries and aquaculture

5.	Environment & Natural Resources	Blue Economy and Fisheries	National Aquaculture Policy	- To guide the Aquaculture sector
6.	Environment & Natural Resources	Culture, the Arts and Heritage	Kenya Bead craft Industry Policy	- To raise awareness on the Cultural and economic value of the bead; - To promote commercialization and entrepreneurship in the bead sector; and - To support the marketing and visibility of bead products and cultural historic narratives of the bead industry.
7.	Environment & Natural Resources	Culture, the Arts and Heritage	Languages of Kenya Policy	- Provide direction for the implementation of programmes geared towards the promotion and development of National and official Languages
8.	Environment & Natural Resources	Culture, the Arts and Heritage	Library Policy	- To operationalise existing policies.

152.	Finance & Production	Agriculture	Fertilizers and Animal Foodstuffs Cap 345(Review)	- Review to align with the Constitution and devolution; and Provide for current industry needs.

153.	Finance & Production	Agriculture	Tea Act 2020 (review)	- Review to facilitate coordinated co-development of the crops by both the National and County Government; and Strengthen devolution
154.	Finance & Production	Agriculture	The Pyrethrum Act, 2013(Review)	- To repeal the Act due to dual legislation of the Pyrethrum Industry by the Pyrethrum Act and Crops Act; and Clawing back devolution
155.	Finance & Production	Economic Planning	Economic Planning Bill	- To strengthen legal and policy framework to give effect to Article 220(2) which assigns the function of national economic policy and planning; and coordination of national and county governments planning
156.	Finance & Production	Economic Planning	Kenya Vision Bill	- To provide a framework for synergized coordination of BETA and the overall coordination, tracking and reporting of country's long development
157.	Finance & Production	Industry	National Industrialization Bill,2023	- To provide for the promotion, development and enhancement of competitiveness of the Industrial Sector; to establish industrial support and coordination institutions; to provide for their functions.
158.	Finance & Production	Micro Small and Medium Enterprises Development (Msme)	Micro and Small Enterprise Act 2012 Amendment	- To align the MSE Act to the devolved Governance structure, Mwongozo and BETA
159.	Finance & Production	Micro Small and Medium Enterprises Development (Msme)	The Start-up bill 2023	- To create a legal framework that encourages growth and sustainable innovative entrepreneurial culture, creates a more favourable environment for innovation, commercialization of innovations, attract Kenyan talents and capital.

160.	Finance & Production	The National Treasury	Amend both the Competition Act, 2010 and Consumer Protection Act, 2012 – CAK	<ul style="list-style-type: none"> - The Consumer Protection Act, 2012 does not have provisions on administrative remedies to address complaints on consumer rights violations as enshrined in Article 46 of the Constitution of Kenya, 2010. 2.The Consumer Protection Act only allows for class action where an aggrieved consumer has to seek redress through a court process which is costly. While the Competition Act, 2010 empowers the Authority to impose remedies to protect consumers. The Authority recommends that it is empowered to implement the Consumer Protection Act, 2012.3. - Amend the Competition Act and the Consumer Protection Act to take advantage of the existing mechanism to operationalize implementation of promoting and enforce compliance with the Consumer Protection Act, 2012 and any other related functions. - Remove the Competition Authority as the Competition and Consumer Protection Authority
161.	Finance & Production	The National Treasury	Amend the Competition Act 2010 to provide for regulation of Strategic Market Position – CAK	<ul style="list-style-type: none"> - Amend the Competition Act, to define Strategic Market Position. - Provide a criterion for assessing Strategic Market Position - Grant the Authority Power to Conduct market Investigations for the purpose of examining whether a provider of key platform services should be designated as possessing Strategic Market Position; - Provide for the obligations for Undertaking with Strategic Market Position

162.	Finance & Production	The National Treasury	Amend the Competition Act, 2010 to provide for Superior Bargaining Power. – CAK	<ul style="list-style-type: none"> - Amend the law to define Superior Bargaining Power. - Introduce enabling provisions to enable Authority regulate Superior Bargaining Positions and provide for offences. - To require industries and sectors in which instances of abuse of a superior bargaining position are likely to occur, to develop a binding code of practice. - The Authority shall publish the code of practice which shall be developed in consultation with the relevant stakeholders, relevant Government Agencies and the Attorney General. - Grant the Cabinet Secretary power to develop regulations for application in sectors, in which instances of abuse of buyer power are likely to occur and may determine duration for application of the regulations
163.	Finance & Production	The National Treasury	Certified Governance Secretary Bill, 2023 – ICS	<ul style="list-style-type: none"> - The Bill seeks to repeal the current Certified Public Secretaries of Kenya Act and align it with Article 10 of the Constitution, and the Kenya Policy on Public Participation, Sessional Paper No. 3 of 2023.
164.	Finance & Production	The National Treasury	Legislative Impact Assessment of the KDI Act, 2012 – KDI	<ul style="list-style-type: none"> - Introduction of a Resolution Tribunal to handle disputes touching on institutions under receivership and liquidation;

				<ul style="list-style-type: none"> - Introduction of a Resolution Tribunal to handle disputes touching on institutions under receivership and liquidation; - Stay of proceedings to ensure that any proceedings commenced against an institution prior to receivership or liquidation are not maintained against the Corporation; - Restriction of the limitation of Actions against any debt owed to an institution in receivership or liquidation; - Aligning the Act to the provisions of the Mwongozo Code of Conduct on the term of members of the Board
165.	Finance & Production	The National Treasury	The Public Private Partnerships (PPP) Act, 2021	<ul style="list-style-type: none"> - Application of the Public Procurement and Asset Disposal Act (PPADA): Clarity on the principle that the PPAD Act does not apply to the PPP process, in alignment with similar provisions under the PPAD Act. Lengthening of the Tenor of PPP Arrangements beyond the 30-year limit: For the effective implementation of certain PPP projects e.g., Water Projects, the threshold of 30 years results in expensive tariffs to consumers. A longer tenor enhances affordability and hence a longer tenor of between 35 to 50 years is recommended. - Review of the Conditions under Section 38, that a Contracting Authority must satisfy to use with Direct Procurement
166.	Governance & Public Administration	Correctional Services	Community service orders, cap 93 - Review	<ul style="list-style-type: none"> - To overhaul the Act to provide for all the mandates of Probation - To align the act with the current constitution
167.	Governance & Public Administration	Correctional Services	Parole system	<ul style="list-style-type: none"> - To adopt Multi-sectoral approach including tracing of offenders

168.	Governance & Public Administration	Correctional Services	Persons deprived of liberty Act No 23 of 2014	- To make regulations in line with provisions of Section 12 on minimum space and standards for persons deprived of liberty
169.	Governance & Public Administration	Correctional Services	Prison Farms revolving fund legal notice (Exchequer and Audit Act (Cap 412) Legal Notice No. 87 of 1993) (Review)	- To bring out the aspect of rehabilitation of inmates
170.	Governance & Public Administration	Correctional Services	Prison industries revolving fund legal notice No. 314 of 1988 ((Exchequer and Audit Act (Cap 412)) (Review)	- To align to PFM Act 2012 - To bring out the aspect of rehabilitation of inmates
171.	Governance & Public Administration	Correctional Services	Probation of Offenders act, cap 64	- To align with the Constitution 2010. - To overhaul the Act & provide for all the mandates of Probation.
172.	Governance & Public Administration	Correctional Services	Probation-Halfway Houses Rules	- To guide operationalization of the half way houses
173.	Governance & Public Administration	Correctional Services	Review of Borstal Institutions Act, CAP 92	- To align the act with the Constitution of Kenya 2010 and emerging jurisprudence on correctional matters
174.	Governance & Public Administration	Correctional Services	Review of Community Service Order Act, Cap 93	- To overhaul the Act to provide for all the mandates of Probation - To align the act with the current constitution
175.	Governance & Public Administration	Correctional Services	Review of Prison Rules	- To guide day to day prison operations
176.	Governance & Public Administration	Correctional Services	Review of Prisons Act, Cap 90,	- To align the act with the Constitution of Kenya 2010 and emerging jurisprudence on correctional matters

177.	Governance & Public Administration	Correctional Services	Review of the Probation of Offenders Act, Cap 64	<ul style="list-style-type: none"> - To aligned with current Constitution 2010. - To overhaul the Act & provide for all the mandates of Probation.
178.	Governance & Public Administration	Correctional Services	Transfer of Prisoners Act, 2015	<ul style="list-style-type: none"> - To address offenders' supervision within the community transferred from another country.
179.	Governance & Public Administration	Devolution	County Governments (Amendment) Bill, 2023	<ul style="list-style-type: none"> - The County Governments Act 2012 operationalizes Chapter Eleven of the Constitution of Kenya by providing for powers, functions and responsibilities of County Governments in the implementation of devolution. Challenges in the implementation of the Act include functional overlaps; lack of clarity in the designation of functions for some offices and conflicting provisions in other Act. Various court decisions have also been made necessitating its amendment to conform to the judgements. The amendments will strengthen the institutions responsible for service delivery at the county level enabling them better perform their functions in service delivery. This will enhance their capacities to undertake the government priorities identified under the BETA
180.	Governance & Public Administration	Devolution	Develop County Public Service Bill	<ul style="list-style-type: none"> - The management of county public service experiences many challenges including lack of standard norms and standards of service affecting staff morale. This negatively affects provision of effective service delivery at county level. - The proposed law will cure the challenges and improve staff welfare thereby enhancing their productivity.

181.	Governance & Public Administration	Devolution	Development of legislation for unbundling and transfer of functions	<ul style="list-style-type: none"> - The analysis and unbundling of functions to provide clarity as well as costing of functions before their transfer to the two levels of government was a critical transition to devolved system of government requirement which was not finalized. This has delayed effective transfer of functions and requisite resources to county governments. - The development of the legislation will facilitate transfer of remaining functions and resources to County Governments in line with the BETA commitments on devolution.
182.	Governance & Public Administration	Devolution	Intergovernmental Relations Amendment Bill, 2023	<ul style="list-style-type: none"> - Article 189 of the Constitution require the National and County Governments as well as County Governments to cooperate and consult in exercise of their various mandates. - This is expected to ensure smooth service delivery for the benefit of citizens. The facilitative systems and relationships that enables cooperation and consultation between the two levels of government and amongst County Governments as provided in the Intergovernmental Relations Act, 2012 (IGRA, 2012) have not lived to its expectations. This has at times strained relationships between the two levels and amongst governments affecting service delivery.

				<ul style="list-style-type: none"> - The 6th Ordinary Session, of the National and County Governments Coordinating Summit held on 22nd June 2018 had recommended the review of the Act to strengthen intergovernmental relations and enhance service delivery by both levels. This is expected to enhance cordial intergovernmental relations to facilitate the delivery of BETA priorities between the two levels of government.
183.	Governance & Public Administration	Devolution	Review County Assemblies Service Act, 2017	<ul style="list-style-type: none"> - Article 175 of the Constitution requires County Governments to be based on separation of powers principles to strengthen democracy and enhance accountability. County Assemblies are established to offer oversight and representation roles. The management of county assembly service however experiences various challenges including lack of clarity in funding mechanisms to guarantee their independence in carrying out their mandates. Lack of uniform standards and norms in county assembly service affects staff morale negatively affecting the effectiveness of the assemblies. This negatively affects provision of effective service delivery at county level. - The proposed review will enhance County Assemblies' capacities to oversight County Governments and effectively represent their constituents. - This will improve accountability of public officers in line with BETA commitments on eradicating wastage in public service.

184.	Governance & Public Administration	Devolution	Review of the Assumption of Office of Governors Act, 2019	<ul style="list-style-type: none"> - The handing over of power by outgoing governor to the incoming governor process is affected by insufficient legal provisions on responsibilities for handing over report. This may lead to loss of public resources during handover procedures. - The review of the Act will enhance accountability in governance in conformity to the governance pillar on the BETA
185.	Governance & Public Administration	Devolution	Review of Urban Areas and Cities Act, 2011	<ul style="list-style-type: none"> - Urban areas contribute over 75% of the GDP and are thus vital as drivers of economic growth. The Constitution envisages decentralization of national and county services to the lowest levels including Urban areas and Cities in conformity to the principal of subsidiarity to strengthen the governance and service delivery to address the socio-economic challenges unique to the Urban areas and Cities. Many urban areas are yet to be operationalized hindering their growth. - The amendment will facilitate establishment of vibrant urban centres for economic growth and job creation in line with the BETA.
186.	Governance & Public Administration	Diaspora Affairs	Review of Labour Migration Bill, 2023	<ul style="list-style-type: none"> - To define strategies and procedures to manage labour migration
187.	Governance & Public Administration	Foreign Affairs	Foreign Service Act 2021 - Proposed amendments to the Foreign Service Act, 2021 (ongoing)	<ul style="list-style-type: none"> - Align provisions of the Act with the Constitution, Roles of the SRC & Public Service Commission
188.	Governance & Public Administration	Immigration and Citizen Services	Kenya Citizens and Foreign Nationals Management Service Act, No. 31 of 2011	<ul style="list-style-type: none"> - Repeal the Act as it is superfluous

189.	Governance & Public Administration	Immigration and Citizen Services	Registration of Persons Act, Cap 107 Laws of Kenya	<ul style="list-style-type: none"> - Amendment to the Rules to anchor Digital Identity - Review of the Registration Person Act, Cap 107 to align with Kenya Constitution, 2010
190.	Governance & Public Administration	Immigration and Citizen Services	The Births and Deaths Registration Act, Cap 149 Laws of Kenya	<ul style="list-style-type: none"> - Amendment to the Births and Deaths Registration Rules to anchor Unique Personal Identifier, UPI - Review of the Births and Deaths Registration Act, CAP 149 to align with Kenya Constitution, 2010 and global modern trends
191.	Governance & Public Administration	Immigration and Citizen Services	The e-Citizen Bill, 2023	<ul style="list-style-type: none"> - To anchor e-Citizen Services into law as established by the Executive Order No. 1 of 2023
192.	Governance & Public Administration	Internal Security and National Administration	Amendment of the Pensions Act	<ul style="list-style-type: none"> - To calculate pension based on the last date of promotion irrespective of time left to retirement.
193.	Governance & Public Administration	Internal Security and National Administration	Amendment of the Salaries and Remuneration Commission Act	<ul style="list-style-type: none"> - To include a retired member of the NPS as a representative of NPS in SRC
194.	Governance & Public Administration	Internal Security and National Administration	Enactment of a legislation to provide for retired Police Officers	<ul style="list-style-type: none"> - To cater for the welfare of retired Police officers
195.	Governance & Public Administration	Internal Security and National Administration	Government Chemist Agency Bill, 2020	<ul style="list-style-type: none"> - To establish a Government Chemist Agency.
196. Annex III: Statutory Instruments

No.	Cluster	State Department	Statutory Instrument	Objectives/ Justification
1.	Environment & Natural Resources	ASALs and Regional Development	Regional Development Authorities Regulations	- To operationalize RDA Act
2.	Environment & Natural Resources	ASALs and Regional Development	The National Drought Management Authority Regulations	- To facilitate effective implementation of the NDMA Act 2016.
3.	Environment & Natural Resources	Blue Economy and Fisheries	Aquaculture Regulations, 2024	- Promote the integration of wise-use of aquaculture resources. - Protection of the diversity of aquaculture habitats flora and fauna.
4.	Environment & Natural Resources	Blue Economy and Fisheries	Fish Levy Trust Fund Regulations, 2024	- Mobilize manage and avail resources for grant fisheries awards capacity building research and dissemination - Promote fisheries management and conservation
5.	Environment & Natural Resources	Blue Economy and Fisheries	Fisheries (Beach Management Unit) Regulations, 2024	- Establishment of fisheries Co-Management structures - Establish modalities for commercializing BMUs into Cooperatives - Establish Modalities for enhancing community engagements in sustainable fisheries management and conservation
6.	Environment & Natural Resources	Blue Economy and Fisheries	Fisheries (General) Regulations, 2024	- To provide how to regulate the Fisheries sector
7.	Environment & Natural Resources	Blue Economy and Fisheries	Fisheries (Inland) Regulations, 2024	- Terms and conditions for harvesting fishery resources - Realization of economic benefits from inland fishery resources - Levies for promoting development of artisanal fishers - Management and conservation of inland fishery resources

8.	Environment & Natural Resources	Blue Economy and Fisheries	Fisheries (Safety and Quality) Regulations, 2024	- The control of the safety and quality of fish, fish products and fish feeds
9.	Environment & Natural Resources	Blue Economy and Fisheries	Marine Fisheries Regulations, 2024	- Terms and conditions for harvesting marine fishery resources. Realization of economic benefits from marine fishery resources. - Strengthening monitoring, control and surveillance to eradicate illegal unreported and unregulated fishing within Kenya marine fishery waters.
10.	Environment & Natural Resources	Blue Economy and Fisheries	Recreational Fisheries (Inland and Riverine) Regulations, 2024	- To provide how to regulate the Fisheries sector
11.	Environment & Natural Resources	Culture, the Arts and Heritage	Protection of Traditional Knowledge & Cultural Expressions (Registration) Regulations, 2023.	- To operationalize the Protection of Traditional Knowledge and Cultural Expressions Act in relations to registration of traditional knowledge and cultural expressions
12.	Environment & Natural Resources	Culture, the Arts and Heritage	Protection of Traditional Knowledge and Cultural Expressions (Access and Utilization of Traditional Knowledge associated with Genetic Resources) Regulations, 2023.	- To operationalize the protection of traditional knowledge and cultural expressions Act in relations to registration of traditional knowledge and cultural expressions
13.	Environment & Natural Resources	Culture, the Arts and Heritage	Protection of Traditional Knowledge and Cultural Expressions (Licensing and Access of Traditional Knowledge and Cultural Expressions) Regulations, 2023	- Operationalize the protection of traditional knowledge and cultural expressions Act in relations to registration of traditional knowledge and cultural expressions

14.	Environment & Natural Resources	Environment and Climate Change	Air Quality Regulations	- To provide for the prevention, control and abatement of air pollution to ensure clean and healthy ambient air
15.	Environment & Natural Resources	Environment and Climate Change	Biodiversity and Access to genetic resources Regulations	-
16.	Environment & Natural Resources	Environment and Climate Change	Climate Change (Carbon Registries) Regulations	-
17.	Environment & Natural Resources	Environment and Climate Change	Climate Change (Carbon Trading) Regulations	-
18.	Environment & Natural Resources	Environment and Climate Change	Climate Change (Public Participation) Regulations	-
19.	Environment & Natural Resources	Environment and Climate Change	Controlled Substances (ODS) Regulations	- To protect the earth's ozone layer from chemicals that deplete it and to regulate trade and practice in controlled substances for protection of human health and the environment
20.	Environment & Natural Resources	Environment and Climate Change	EIA Regulations	-
21.	Environment & Natural Resources	Environment and Climate Change	EMC (Deposit Bonds) Regulations	- To ensure good environmental practices, availability of funds for remediation and that adequate remediation is achieved without adversely affecting economic viability
22.	Environment & Natural Resources	Environment and Climate Change	EMC (E waste) Regulations	- To protect environmental resources and public health from environmental pollution and restore the quality of the natural environment
23.	Environment & Natural Resources	Environment and Climate Change	EMC (Extended Producer Responsibility) Regulations	- To extend the responsibility of a producer over a product and its packaging during the entire life cycle of the product or its packaging
24.	Environment & Natural Resources	Environment and Climate Change	EMC (Sand Harvesting) Regulations	-

25.	Environment & Natural Resources	Environment and Climate Change	EMC (Strategic Environment Assessment, Impact Assessment and Audit) Regulations	- To protect environmental resources and public health from environmental pollution and restore the quality of the natural environment
26.	Environment & Natural Resources	Environment and Climate Change	EMC (Toxic and Hazardous chemicals and materials management) Regulations	- To ensure protection of human health and environment from adverse effects of toxic and hazardous industrial chemicals and materials
27.	Environment & Natural Resources	Environment and Climate Change	EMC (Plastic Packaging Materials Control and Management) Regulations	- To establish a legal framework for the control and management of the use of plastic packaging material and promote use of friendly packaging material
28.	Environment & Natural Resources	Environment and Climate Change	EMC (Waste Tyres) Regulations	-
29.	Environment & Natural Resources	Environment and Climate Change	EMC (Wetlands) Regulations	-
30.	Environment & Natural Resources	Environment and Climate Change	Noise Regulations	- To align the regulation with the provisions of the Constitution of Kenya and Reduce environmental damage and facilitate economic development and socio-economic benefits
31.	Environment & Natural Resources	Environment and Climate Change	Water Quality Regulations	- To align the regulation with the provisions of the Constitution of Kenya and Reduce environmental damage and facilitate economic development and socio-economic benefits
32.	Environment & Natural Resources	Forestry	Charcoal Regulations	-
33.	Environment & Natural Resources	Forestry	Gum and Resins Regulations	-
34.	Environment & Natural Resources	Forestry	Participation in Sustainable Forest Management Regulations	-
35.	Environment & Natural Resources	Forestry	Registration of Private Forests Regulations	-

36.	Environment & Natural Resources	Mining	The Mining (Mineral Royalty Sharing) Regulations,2023	- The Objective of the Regulations is to give effect to Section 183(5) of the Mining Act, 2016 to provide for the sharing of mineral royalties among the National Government, County Governments and benefiting Communities.
37.	Environment & Natural Resources	Mining	The Mining (Dealings in Minerals) (Amendment) Regulations,2023	- The amendment regulations seek to introduce a schedule with specific fees and charges payable for application of a mineral dealers/processing licence.
38.	Environment & Natural Resources	Mining	The Mining (Gemstone Identification and Value Addition) (Fees) Regulations,2023	- The Regulations set out the fees payable for various mineral processing services offered at established mineral processing and value addition centres in Kenya.
39.	Environment & Natural Resources	Mining	The Mining (Licence and Permit) (Amendment) Regulations, 2023	- The Regulations provide for payment of a mineral development levy charged at 1% of gross sales of extracted minerals.
40.	Environment & Natural Resources	Mining	The Mining (Mine Health & Safety), Regulations,2023	- The Objective of the Regulations is to implement the State Department's mandate as per Executive Order No. 1 of 2023 to protect and safeguard the health and safety of mine employees and communities affected by mining operations.
41.	Environment & Natural Resources	Mining	The Mining (Mine Support Services) (Amendment) Regulations,2023	- The Amendment Regulations seek to introduce an application procedure for an assignment or transfer of a licence together with the requisite fees payable. The amendment regulations also seek to introduce a schedule with specific fees and charges payable for application for a mine support service

42.	Environment & Natural Resources	Mining	The Mining (Royalty Collection and Management) Regulations, 2023	<ul style="list-style-type: none"> - The Objective of the Regulations is to provide the modalities for mineral royalty collection and management in Kenya. The regulations apply to holders of mineral rights, mineral dealers, mining permit holders among others. - The regulations provide for modalities of determination of royalty base and the royalty payable for each mineral extracted in Kenya and suspension/reduction on royalties payable.
43.	Environment & Natural Resources	Shipping and Maritime Affairs	Cabotage Regulations	<ul style="list-style-type: none"> - To give full effect to Section 14 of the Merchant Shipping Act, 2009; - To provide a framework for growth of the Kenya maritime industry
44.	Environment & Natural Resources	Shipping and Maritime Affairs	Draft Facilitation of Maritime Traffic Regulations	<ul style="list-style-type: none"> - To domesticate the Convention on Facilitation of International Maritime Traffic, 1975; - To provide standards and practices for simplifying formalities, documentary requirements and procedures on ships' arrival, stay and departure; - To embrace digitalization and automation for procedures.

These regulations will enhance consultation and coordination of implementation of government development plans including BETA priorities by both levels of government enhancing the lives of citizens.
140.	Governance & Public Administration	Devolution	The Sector Forum Regulations, 2023	<ul style="list-style-type: none"> - Sector forums are established to facilitate consultations and cooperation by both levels of governments and county governments in undertaking their mandates in line to Article 189 of the Constitutions. Various institutions are empowered through the IGRA 2012 to establish sector forums to deliberate on specific issues. The lack of clarity on their establishment and operations leads to uncoordinated planning and delivery of services by various agencies resulting to misallocation of resources and intergovernmental conflicts.
				<ul style="list-style-type: none"> - These regulations will enhance consultation and coordination of implementation of government development plans including BETA priorities by both levels of government enhancing the lives of citizens.

141.	Governance & Public Administration	Devolution	Urban Areas and Cities Regulations, 2023	- The implementation of the Act has been inhibited by lack of regulations to operationalize its various provisions. Most urban areas and cities in the country have not been established in accordance to the law exposing them to costly litigations. This is due to lack of clarity on establishment, management structures and funding mechanisms for urban areas and cities. The development of the regulations will improve management of urban areas which will enable them act as centers of job creation and economic growth stimulation in line to BETA
142.	Governance & Public Administration	Diaspora Affairs	Develop Diaspora Regulations	- To operationalize Diaspora Bill
143.	Governance & Public Administration	Diaspora Affairs	Regulation on the Provision of Consular Services	- To enable the provision of more services to Kenyans in the diaspora
144.	Governance & Public Administration	Foreign Affairs	Regulations on Terms and Conditions of Service applicable to a Special Envoy	- Kenya's foreign peace diplomacy continues to draw on Kenya's experiences in mediation, conflict resolution and peacekeeping.
145.	Governance & Public Administration	Foreign Affairs	Regulations on the provision of consular services	- To come up with a Foreign Exchange Loss Assumption Facilitation Regulations to cushion the Diplomatic officers as well as money that is sent to our Diplomatic Missions.
146.	Governance & Public Administration	Foreign Affairs	Regulations on the provisions of Protocol Services	- To align with Section 5(p) of Foreign Service Act No.12 of 2021
147.	Governance & Public Administration	Immigration and Citizen Services	Refugees (Reception and Registration) Regulations, 2023	- Refugees (Reception and Registration) Regulations, 2023
148.	Governance & Public Administration	Immigration and Citizen Services	Registration of Persons (NIIMS Regulations 2020)	- Deletion of NIIMS

149.	Governance & Public Administration	Immigration and Citizen Services	The National Shirika (Marshall) Plan	- To reform Refugee Camps to Integrated Settlement
150.	Governance & Public Administration	Internal Security and National Administration	Computer Misuse and Cybercrimes (Amendment) regulations	-
151.	Governance & Public Administration	Internal Security and National Administration	Regulations are to be drafted on: establishment of outposts and other units; handing of information; disposal of unclaimed firearms and ammunition; Certificate of Appointment; Service Examination Board; Examination and Certification of Police exams; private use of police; use of firearms and security equipment for foreign police services; command of Police reservists; classification of information held by the service; and use of force.	-
152.	Infrastructure	Broadcasting and Telecommunications	Access to Information Regulations	- To enable implementation of the Act by the Commission on Administrative Justice
153.	Infrastructure	Broadcasting and Telecommunications	Review of Kenya Information and Communications, Act Regulations	- To enable the Regulator, administer the Act following developments in the ICT sector

154.	Infrastructure	Energy and Petroleum	Develop two (2) regulations under the Petroleum Act, 2019 (Upstream and Midstream Petroleum Regulations) in FY 2024/25 and two in FY25/26	-
155.	Infrastructure	Energy and Petroleum	Energy (Abandonment and Decommissioning) Regulations	<ul style="list-style-type: none"> - Provides for the requirements and responsibilities for abandonment and decommissioning of energy infrastructure to ensure protection of persons, property and the environment. - Provides for the establishment of a mechanism for adequate financial resources and ensuring that they are available when necessary, for safe abandonment and decommissioning of energy infrastructure. - Provide the guidelines on the nature, type and format of data, information and statistics to be provided to the Authority by Licensees in abandonment and decommissioning - Provide for the procedures for monitoring of site during and after abandonment and decommissioning - Sets out the minimum requirements for preparing an abandonment and decommissioning plan. Sets out what would constitute defaults by Licensees in abandonment and decommissioning of energy infrastructure. - Prescribe penalties to be imposed on defaulters in abandonment and decommissioning of energy infrastructure. - Provide for the procedure, timelines and documentation required in abandonment and decommissioning of energy infrastructure.

156.	Infrastructure	Energy and Petroleum	Energy (Appliances, Energy Performance and Labelling) Regulations	<ul style="list-style-type: none"> - To prescribe the energy efficiency and conservation standards of appliances manufactured, imported, distributed or retailed for use in Kenya. - The regulations prohibit manufacture or sale or purchase or import of certain equipment unless such equipment or appliances conform to minimum energy efficiency performance standards. - To grant EPRA the powers to enforce these standards as well as review and gazette the standards from time to time as it deems necessary; and - To set out the penalties for offences under these regulations.
157.	Infrastructure	Energy and Petroleum	Energy (Coal and Coal bed methane gas for electricity and energy production and common user facilities) Regulations	<ul style="list-style-type: none"> - Provide for the processing of concession for exploration, extraction, production and processing of coal and coal bed methane for electricity generation for coal blocks reserved for the Ministry of Energy as defined in the schedule; - The licensing and permitting for storage, transportation, importation and bulk sale of coal and coal bed methane in relation to the licensing and permitting for construction and use and shared use of common user facilities for coal. - It further provides the setting up of levels of strategic coal reserves to be maintained at a facility and by the national government for the purpose of electricity generation. - The requirement to comply with relevant laws such as: local content, the environment, health and safety laws and regulations such as the reporting of accidents and incidents regulations. - Provide for Schedule of applicable charges and fees.

158.	Infrastructure	Energy and Petroleum	Energy (Complaints and Disputes Resolutions) Regulations	<ul style="list-style-type: none"> - Energy (Complaints and Disputes Resolutions) Regulations
159.	Infrastructure	Energy and Petroleum	Energy (Consolidated Energy Fund) Regulations	<ul style="list-style-type: none"> - Seeks to establish the Energy fund; - Sets out the sources and uses of the Fund; and - Sets out the management of the Fund.
160.	Infrastructure	Energy and Petroleum	Energy (Decision of the Authority) Regulations	<ul style="list-style-type: none"> - The Regulations provide guidelines that ensures that decisions of the Authority are conveyed in a timely manner for transparency and accountability to the public as set out under Schedules I and II of the regulation.
161.	Infrastructure	Energy and Petroleum	Energy (Electricity Supply Regulations)	<ul style="list-style-type: none"> - Makes provisions for Planning, design, construction, operation and maintenance of electric power generators, electric supply lines and equipment, Connection of any premises to an electricity supply system and Electrical installation work at the premises of any consumer.
162.	Infrastructure	Energy and Petroleum	Energy (Electricity Market, Bulk Supply and Open Access) Regulations	<ul style="list-style-type: none"> - Provide guidance on the review of the electricity market. - Govern the operations and management of the electricity market, open access and bulk supply; - Promote competition, efficiency and reliability and improve the quality of service within the electricity market.; - Provide for non-discriminatory open access to transmission or distribution systems so as to enhance competition; - Attract investment for generation, transmission, distribution and retail supply; - To achieve greater accountability and transparency in the operations of the electricity market

163.	Infrastructure	Energy and Petroleum	Energy (Electricity Reliability, Quality of Supply and Service) Regulations	<ul style="list-style-type: none"> - To provide for the guaranteed performance standards for reliability and quality of supply of electrical energy and for quality of service by generators, transmitters, System Operator, distributors and retail supply licensees.; - Make provisions for compensation and penalties in cases of default.
164.	Infrastructure	Energy and Petroleum	Energy (Electricity Tariff) Regulations	<ul style="list-style-type: none"> - Provide for the scope of tariff control and tariff control framework, set out the process for a tariff application and prescribe the procedure for preparation, approval and publication of a statement of tariffs
165.	Infrastructure	Energy and Petroleum	Energy (Electricity Undertaking Inspection and Investigation) Regulations	<ul style="list-style-type: none"> - Provides for the appointment of Inspectors and investigators; - Provides for duties and powers of the Inspectors and Investigators; - Provide for procedures for inspections and investigations
166.	Infrastructure	Energy and Petroleum	Energy (Energy & Petroleum Tribunal Procedure) Rules	<ul style="list-style-type: none"> - Prescribes the procedural rules that apply to all matters referred to the Energy and Petroleum Tribunal (EPT).
167.	Infrastructure	Energy and Petroleum	Energy (Energy Management) Regulations	<ul style="list-style-type: none"> - To provide for determination and gazettment of the energy consumption ratings by EPRA for designated facilities and requirement for the facility owner or occupier to have an energy management policy. - To prescribe for energy audits and accreditation of energy manager, energy auditors and energy service providers. - To set out the requirements for certification fees, professional indemnity cover and continuous professional development as well as the general penalties for offences under this regulation

168.	Infrastructure	Energy and Petroleum	Energy (Feed-in Tariff) Regulations	<ul style="list-style-type: none"> - The regulations set out the guidelines and timelines for application and approval procedures to enter into a FiT-system and the function of EPRA on the same
169.	Infrastructure	Energy and Petroleum	Energy (Geothermal Resources royalty) Regulations	<ul style="list-style-type: none"> - To determine the value of geothermal resources; - To guide the licensee on how to prepare a submission of royalty; - Provides for exclusions from royalty returns.
170.	Infrastructure	Energy and Petroleum	Energy (Geothermal Resources) Regulations	<ul style="list-style-type: none"> - Sets out the application process and the requirements for authority to search geothermal resources and for the grant and renewal of a geothermal resources licence, prescribes the criteria for award of geothermal resource licence and the fees chargeable, provides for the guidelines for drilling of bores and sets out the form of the geothermal resources licence.
171.	Infrastructure	Energy and Petroleum	Energy (Incidents and Accident Reporting) Regulations	<ul style="list-style-type: none"> - Provide a requirement for designation of the Responsible Person for the purpose of reporting Incidents and Accidents for all licensees; - Outlines categories of reportable Incidents and Accidents in the energy sector; - Provide guidance on reporting of Incidents and Accidents in the energy sector; - Outline specific conditions and procedures and form in reporting of Incidents and Accidents in the energy sector; - Provide conditions and mechanisms for Accident investigations; - Prescribe record keeping for incidents and accidents; - Establish the Energy Sector Safety Committee

172.	Infrastructure	Energy and Petroleum	Energy (Integrated National Energy Plan) Regulations	<ul style="list-style-type: none"> - To prescribe the requirement to keep records for separate businesses and the period thereof as well as the regulatory reporting period. And set out the form and content of the regulatory accounts.
173.	Infrastructure	Energy and Petroleum	Energy (Local Content) Regulations	<ul style="list-style-type: none"> - Seek to ensure that any person carrying out energy undertakings or works shall ensure that the local content is a component of their energy activities; - To set out inter alia the minimum local content targets, requirement for submitting local content plans and performance report to EPRA, and offences and penalties for non-compliance with the regulations; - To guide on local content planning, targets, monitoring, auditing and performance reporting.
174.	Infrastructure	Energy and Petroleum	Energy (Mini-Grids) Regulations	<ul style="list-style-type: none"> - Sets out the legal framework for Mini-Grids and seek to spur their development and operations; - Sets out the requirements for tariff approval and for Grant of a Mini- Grid Licenses; and - To set out parameters and procedure for suspension or revocation of generation, distribution and retail supply license on the same
175.	Infrastructure	Energy and Petroleum	Energy (Net Metering) Regulations	<ul style="list-style-type: none"> - Sets out the guidelines, timelines and fees applicable for application to enter into a net metering system agreement; and - To set out the monitoring mechanisms for net metering
176.	Infrastructure	Energy and Petroleum	Energy (Public Rights of way) Regulations	<ul style="list-style-type: none"> - The regulations shall provide guidelines for: entry into private land for purposes of survey, inspections, maintenance and repair of energy infrastructure;undertaking work on road and rural reserve, Airport, National reserve and Heritage sites, rivers, Canals and

				<p>Harbours, forests and railway lines;</p> <ul style="list-style-type: none"> - Provide for declaration of energy resource areas compensation for damages resulting from development of energy infrastructure. <p>Energy infrastructure wayleave corridor widths and safety clearances.</p>
177.	Infrastructure	Energy and Petroleum	Energy (regulatory accounts) Regulations	-
178.	Infrastructure	Energy and Petroleum	Energy (Renewable Energy Resources) Regulations	<ul style="list-style-type: none"> - Provide for Planning and mapping of RE resources; - Provide for Sustainable exploitation of RE resources; - Provide for operation of RE projects for electricity generation.; - Establish the Renewable Energy Resources Advisory Committee (RERAC); - Provide for Licensing for exploitation of RE resources; - Promotion of development and use of RE including the Energy Centers and Carbon Credits. Renewable energy resource data
179.	Infrastructure	Energy and Petroleum	Energy (Rural Electrification Program Fund	<ul style="list-style-type: none"> - Set out the guidelines on the imposition and collection of the Rural Electrification Programme (REP) Levy and regulate on the general administration of the Fund.

180.	Infrastructure	Energy and Petroleum	Energy (Solar Photovoltaic Systems) Regulations	<ul style="list-style-type: none"> - Provide for the requirements for certification of solar PV workers and the licensing of manufacturers, importers, vendors and contractors as well as importation and manufacture of solar PV systems, components and consumer devices and the design, installation and maintenance of solar PV system; - Set out the classes of solar PV workers certification and manufacturers, importers, vendors and contractors' licenses; and
				<ul style="list-style-type: none"> - Set out the requirement for certification fees, professional indemnity cover and continuous professional development as well as the general penalties for offences under this regulation.
181.	Infrastructure	Energy and Petroleum	Energy (Solar Water Heating) Regulations	<ul style="list-style-type: none"> - Require that all residential houses and commercial buildings, health institutions and educational institutions with hot water requirements of a capacity exceeding 100 litres per day shall install and use solar water heating systems within 5 years from the date on which the Regulations came into force or apply to the Authority for exemption; - Set licensing and certification requirements of solar water heating system workers and contractors; - Set out the procedure and standards to be met when undertaking the design, installation, testing, commissioning, repair and maintenance of a Solar Water Heating Systems

182.	Infrastructure	Energy and Petroleum	Energy (System Operations) Regulations	<ul style="list-style-type: none"> - These regulations provide for the development of a Land access, acquisition and Resettlement Framework needed for accessing land for Upstream petroleum operation
183.	Infrastructure	Energy and Petroleum	Petroleum (Common User Petroleum Logistics Facilities) Regulations	<ul style="list-style-type: none"> - To Define the licensing requirements for common user petroleum logistics facilities. - To Designate common-user petroleum logistics facilities; - To Determine the custodial arrangements of petroleum products held at common user petroleum logistics facilities; - Prescribe the nature of contractual arrangements between owners of common user petroleum logistics facilities and the contracted users;
				<ul style="list-style-type: none"> - Prescribe requirements for reporting and investigation of accidents relating to common-user petroleum logistics facilities; - To Compute tariffs and allowable losses for common-user petroleum logistics facilities; - Provide for complaints and dispute resolution mechanisms relating to common-user petroleum logistics facilities; - Provide for appropriate penalties for offenses committed in relation to operations of a common-user petroleum logistics facilities.

184.	Infrastructure	Energy and Petroleum	Petroleum (Consolidated Fund) Regulations	<ul style="list-style-type: none"> - These regulations establish a consolidated petroleum fund whose purpose shall be: <ul style="list-style-type: none"> a) Fund the establishment and operations of the petroleum strategic stocks reserves. b) Fund the infrastructure for the petroleum strategic stocks reserves. c) Fund the development of Petroleum Infrastructure. d) Support operations of the Fund. e) Petroleum sector disaster mitigation and response. f) Early decommissioning of common user petroleum installations. g) Efficiency and environmental conservation initiatives associated with the petroleum value chain; and h) Applied research, technology development and innovation allied to the Petroleum sector including technology needs assessment, deployment and scaling up. i) Capacity building for Petroleum sector players not covered under the Petroleum Development Fund
------	----------------	----------------------	---	---

185.	Infrastructure	Energy and Petroleum	Petroleum (Development Levy) Regulations	<ul style="list-style-type: none"> - These regulations: <ul style="list-style-type: none"> a) Stabilize local petroleum pump prices in instances of spikes occasioned by high landed costs above a threshold determined by the Authority b) Develop common-user facilities for the distribution of oil products. c) Establish and operate the facilities for the testing of petroleum and oil products, in collaboration with the body responsible for the development of standards in Kenya d) Support the petroleum sector in planning, research and development activities. e) Support capacity building in the petroleum sub-sector. f) Finance the operations of the Secretariat of the Fund Administrator; and g) Generally, provide for matters relating to the development of oil industry
186.	Infrastructure	Energy and Petroleum	Petroleum (Information and Statistics) Regulations	<ul style="list-style-type: none"> - These regulations: <ul style="list-style-type: none"> (a) Expand the requirement to provide statistics by all players in the petroleum supply chain. (b) Ensure timely and accurate acquisition of operational stocks data in the country to enhance decision making where necessary. (c) Improve safety in the petroleum industry by ensuring reporting and investigations of all accidents and incidents occurring along the supply chain. (d) Avail information to the National and County Governments to be used for planning and forecasting

187.	Infrastructure	Energy and Petroleum	Petroleum (Licensing of Businesses and Facility Construction) Regulations	<ul style="list-style-type: none"> - These regulations: <ul style="list-style-type: none"> a) Ensure that establishment of retail petroleum facilities is as per the set standards and conforms to both local and international best practices.
				<ul style="list-style-type: none"> (b) Improve safety to the workers, users and the general public. (c) Regulate the development of new retail petroleum facilities and limit excess capacity. d) Promote fair competition amongst retail petroleum businesses by instituting clear licensing procedures. e) Ensure compliance with environmental, health and safety standards and give effect to Government's policy on local content.
188.	Infrastructure	Energy and Petroleum	Petroleum (Licensing Road Transportation Business Road Tankers and Drivers) Regulations	<ul style="list-style-type: none"> - The Regulations <ul style="list-style-type: none"> a) provide for a licensing and certification framework for petroleum road transportation business, road tankers and drivers. b) Ensure that road tankers conform to the required technical and operational standards c) Define and ensure compliance with requirements imposed on petroleum road tanker drivers. d) Promote fair competition amongst petroleum road transportation businesses by developing clear and consistent licensing procedures e) Ensure compliance with environmental, health and safety standards.

189.	Infrastructure	Energy and Petroleum	Petroleum (Lubricants Facility Construction and Business Licensing) Regulations	<ul style="list-style-type: none"> - These regulations: <ul style="list-style-type: none"> a) Ensure that establishment of lubricants facilities is as per the set standards and conforms to both local and international best practices. b) Improve on the safety of workers, users and the general public c) Regulate the development of new lubricants facilities. d) Promote fair competition amongst lubricants facilities businesses by instituting clear licensing procedures.
				<ul style="list-style-type: none"> e) Ensure compliance with environmental, health and safety standards and giving effect to Government's policy on local content
190.	Infrastructure	Energy and Petroleum	Petroleum (Minimum Operational Stock) Regulations	<ul style="list-style-type: none"> - The regulations: <ul style="list-style-type: none"> a). Ensure that the country's security of supply of petroleum products is guaranteed in the event of temporary disruption of the supply chain. b). Define which petroleum products are to be maintained as minimum operational stock. c). Define the minimum operational stock holding days; and d). Provide for offences and penalties related to failure to adhere to minimum stock requirements.

191.	Infrastructure	Energy and Petroleum	Petroleum (Retail Facility Construction and Licensing) Regulations	<ul style="list-style-type: none"> - These regulations: <ul style="list-style-type: none"> a) Ensure that establishment of retail petroleum facilities is as per the set standards and conforms to both local and international best practices. b) Improve safety to the workers, users and the general public. c) Regulate the development of new retail petroleum facilities and limit excess capacity. d) Promote fair competition amongst retail petroleum businesses by instituting clear licensing procedures. e) Ensure compliance with environmental, health and safety standards and give effect to Government’s policy on local content.
192.	Infrastructure	Energy and Petroleum	Petroleum (Strategic Stock) Regulations	<ul style="list-style-type: none"> - The Regulations <ul style="list-style-type: none"> a) Ensure the country’s security of supply of petroleum products is guaranteed in the event of a major disruption of the petroleum supply chain.

				<ul style="list-style-type: none"> b) Explicitly define the purpose of strategic stock as a means of mitigating the impacts of emergency supply. c) Change the number of days of strategic stocks to align with the country's requirements and supply risk. d) Provide for the import, storage and management of Petroleum Product Strategic Stock. e) Assign responsibility for management of Petroleum Product Strategic Stock. f) Provide for the financing of Petroleum Product Strategic Stock. g) Determine the process of ascertaining the level of reserve. h) Provide for the process of utilization of the Petroleum Product Strategic Stock. i) Provide for the process of appointment of storage facilities for the Petroleum Product Strategic Stock; and j) Provide for the appointment of administrative unit used for the management of the Petroleum Product Strategic stocks.
193.	Infrastructure	Energy and Petroleum	Petroleum (Product Quality Management) Regulations	<ul style="list-style-type: none"> - These regulations: <ul style="list-style-type: none"> a) Define sampling and testing requirements for all products along the supply chain. b) Regulate non-compliant sites or tankers. c) Prescribe for marking of illuminating kerosene. d) Prescribe for marking of export petroleum products. e) Prescribe penalties for non-compliance.

194.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Business Licensing and Facility Construction Permit) Regulations, 2021 - Revision	-
195.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Business Licensing and Facility Construction Permit) Regulations, 2021 – Revision	-
196.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Construction, Operation and Decommissioning of Oil Jetties) Regulations, 2021	-
197.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Construction, Operation and Decommissioning of Oil Jetties) Regulations, 2021	-
198.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Importation -Quota Allocation) Regulations	- These Regulations: a). Give priority to purchase petroleum products. b). Set commercial terms and freight costs. c). Reallocate petroleum import quota. d). Ensure compliance with petroleum product quota. Put in place mechanisms to consolidate OTS nominations for Quota holder and that of independent stations
199.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Information and Statistics) Regulations, 2021 – Revision	-

200.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Jetties) Regulations	<ul style="list-style-type: none"> - These regulations: <ul style="list-style-type: none"> a) Set out the guidelines for construction of a marine petroleum jetty. b) Details the form and validity of the construction permit. c) Defines the obligations of the marine petroleum jetty owner and the designated marine jetty operator.
				<ul style="list-style-type: none"> d) Sets out the process of license application and renewal for marine jetty operators. e) Defines the obligations of the marine petroleum jetty users. f) Compute tariffs for marine petroleum jetty g) Details obligation of marine jetty operators, users, OMCs and owners to Authority with regards to providing information and data. h) Ensures compliance with environmental, health and safety standards. i). Ensures compliance with security standards and guidelines. j) Ensures the common jetty pipeline has line fill k) Describes vessel scheduling and functions of the vessel scheduling committee. l) Specifies the petroleum product quality. m) Provide for complaints and dispute resolution mechanisms. n) Provide for appropriate penalties for offences committed in relation to jetty regulations.
201.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Licensing of Crude Oil Transportation by Road) Regulations	<ul style="list-style-type: none"> - These regulations: - <ul style="list-style-type: none"> a) Prescribe the requirements for Issuance of a Crude Oil Road Transport licence and a Crude oil Road Tanker permit b) Prescribe the requirements for certification of Crude Oil Tanker driver

202.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Licensing of Petroleum Road Transportation, Business, Road, Tankers and Drivers) Regulations, 2021 – Revision	-
203.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Licensing of Petroleum Road Transportation, Business, Road, Tankers and Drivers) Regulations, 2021 – Revision	
204.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Local Content) Regulations	- These regulations: - a) Provide for establishment of local content requirements to which a contractor, subcontractor, licensee, or any other entity carrying out upstream, midstream and downstream petroleum operations shall abide to. b) Provides for the requirement of provision of a local content plan c) Provides for reporting and monitoring requirements for the local content plan
205.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Lubricants Facilities Construction and Business Licensing) Regulations, 2021 - New	- To provide for a framework for the requirements and licensing of downstream petroleum (lubricants) facilities and businesses
206.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Midstream Crude Oil and Natural Gas Pipeline And Storage Operations) Regulations	- These regulations: - a) Provide for roles and responsibilities with regard to authorization of a midstream project and issuance of operating licences b) Provides for the process of land acquisition for the midstream project

207.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Minimum Operational Stock) Regulations, 2021 – Revision	- To provide for a framework for the requirements of minimum operational stocks in downstream petroleum
208.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Operation of Common User Petroleum Facilities) Regulations, 2021 – New	- To provide for a framework for the requirements and licensing of downstream petroleum common user facilities
209.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Operation of Common User Petroleum Facilities) Regulations, 2021 – New	- To provide for a framework for the requirements and licensing of downstream petroleum common user facilities
210.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Products Quality Management) Regulations, 2021 – Revision	-
211.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Products Quality Management) Regulations, 2021 – Revision	-
212.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Quota Allocation for Importation of Petroleum Product) Regulations, 2021	-
213.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Retail Station Construction and Licensing) Regulations, 2021 – Revision	- To provide for a framework for the requirements and licensing of retail (petrol) stations in downstream petroleum

214.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Retail Station Construction and Licensing) Regulations, 2021 – Revision	-
215.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Strategic Stocks) Regulations, 2021 – Revision	- To provide for a framework for the requirements of maintaining strategic stocks of refined petroleum products
216.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Upstream and Midstream Environment, Safety and Health) Regulations	- These regulations: - a) Provide for safety requirements during in upstream petroleum operations b) Prescribe the requirement to comply with approved standards and best industry practice in Design and construction of upstream petroleum facilities c) Prescribe minimum requirements for ensuring the health of workers is observed in upstream petroleum operations

217.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Upstream Petroleum Access to Land) Regulations	<p>- Regulations lay down detailed requirements for the safeguarding of efficient, safe, reliable and coordinated system operations of the Kenya National Transmission System and Interconnected Transmission System including:</p> <p>Principles concerning operational security.</p> <p>Issuance of directions by the System Operator to Operators of a generating plant, Significant Grid Users, substation, transmission or distribution system.</p> <p>Coordination and data exchange between the System Operator and Transmission Network Service Providers, Transmission System Operators, Licensees and</p> <p>Users, in operational planning and close to real-time operations.</p> <p>Training and certification of system operations personnel.</p>
				<p>Outage coordination.</p> <p>Scheduling between the System Operator and other Transmission System Operators.</p> <p>Establishment of a framework for Ancillary Services.</p>

218.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Upstream Petroleum Cost Management) Regulations	<ul style="list-style-type: none"> - These regulations: - a) Provide means of administering the power vested in the Cabinet Secretary under the Petroleum Agreement and a Non-Exclusive Exploration permit, the Act, and any other relevant Law; b) Harmonize and standardize its application throughout petroleum operations in monitoring petroleum cost; c) Promote consistency and standardization in presentation and reporting of petroleum cost reporting under a petroleum agreement and monitoring by the Authority; d) Ensure accountability, transparency and the effective, economic and efficient utilization of petroleum resource
219.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Upstream Petroleum Operations) Regulations	<ul style="list-style-type: none"> - These regulations: - a) Provide for the requirements for contractors to provide an annual work program and budget b) Provides for the process of issuance of various operational permits such as drilling permit, production permits and well abandonment permits amongst others

220.	Infrastructure	Energy and Petroleum	The Draft Petroleum (Upstream Petroleum Rights Management and Administration) Regulations.	<ul style="list-style-type: none"> - These regulations: - a) Provide for roles and responsibilities regarding opening of areas for petroleum activities and Constitution of blocks b) Provide for the process of licensing suitable areas or blocks c) Provide for terms of validity of a licence issued under the regulations d) Provide for the requirements and procedures for unitization of areas or blocks e. Provide for the circumstances that would result in the termination of rights for a block
221.	Infrastructure	Energy and Petroleum	The Energy (Electricity Licensing) Regulations 2021.	<ul style="list-style-type: none"> - Prescribes the procedure for application and transfer of Licenses, including the process for objection of grant of a Licence as well as the decision-making processes of EPRA in the grant of a Licence. - Sets out the format of the application and the licenses and lists the supporting documents to the application for a license. - Provides a schedule of the fees chargeable in respect of the corresponding license or permit
222.	Infrastructure	Housing and Urban Development	Estates Agents (Categorization of Estates Agents) Regulations 2023	<ul style="list-style-type: none"> - To have an inclusive law that provides for all categories of players in the Real Estate Sector
223.	Infrastructure	Housing and Urban Development	National housing fund regulations	<ul style="list-style-type: none"> -
224.	Infrastructure	Housing and Urban Development	Review of Civil Servants Housing Schemes Fund regulations	<ul style="list-style-type: none"> - To improve Civil Servant accessibility to the fund by: Reducing the payable deposit from the current 10% to an affordable percentage, Recognize other credible sources of income apart from salary, Introduction of sub-committees of the scheme management committee,

				- To grant the scheme Management committee powers to exempt the prerequisite deposit requirement.
225.	Infrastructure	Housing and Urban Development	Slum upgrading Regulations	- Streamline and govern slum upgrading activities
226.	Infrastructure	Housing and Urban Development	Urban Area and Cities (General Regulations	- To fully operationalize the Urban Areas and Cities Act (UACA) in accordance with Section 53 of the UACA Act
227.	Infrastructure	ICT and the Digital Economy	African Union Convention on Cyber Security and Personal Data Protection (Malabo Convention)	- The convention encourages AU member states to recognize the need to protect critical cyber/ICT infrastructure, personal data and to encourage free flow of information with the aim of developing a credible digital space in Africa.
228.	Infrastructure	ICT and the Digital Economy	Convention 108	- Application for observer status at council of Europe convention for the protection of individuals with regard to automatic processing of personal data
229.	Infrastructure	ICT and the Digital Economy	Data Sharing Regulations	- Provide guidance on sharing of personal data
230.	Infrastructure	ICT and the Digital Economy	Regulation on Collection of training and Auditing fees	- Facilitate accreditation of trainers and auditors on data protection and anchor the fees in law as per the guidance for the National Treasury
231.	Infrastructure	ICT and the Digital Economy	Reserve fund regulations	- Comply with the Data Protection Act which envisages creation of reserve fund to supplement GoK funding
232.	Infrastructure	ICT and the Digital Economy	Review of the Legal Notice establishing (Kenya -AIST)	- Place Kenya -AIST under the ministry of ICT and the Digital Economy as opposed to ministry of Education
233.	Infrastructure	Lands and Physical Planning	The Community Land Regulations (Amendment) 2023;	-
234.	Infrastructure	Lands and Physical Planning	The Land Adjudication (Amendment) Regulations, 2023	- To review levies and charges on various services offered in the land sector
