SDPA	-	State Department for Parliamentary Affairs
WoG	-	Whole of Government

DRAFT

PART ONE: POLICY AND LEGISLATIVE INITIATIVES

This Schedule provides a breakdown of all reported ongoing and proposed policy and legislative initiatives across Ministries and State Departments and their prioritization according to a determined Prioritization Criteria.

1.1 Reported Policy and Legislative Initiatives

Set out under **Annex I** to this Schedule are the reported policy initiatives while **Annex II** sets out the reported legislative initiatives. **Annex III** includes the Reported Statutory Instruments.

1.2 Prioritization of Policy and Legislative Initiatives

The Reported Initiatives have been prioritized in accordance with the Prioritization Criteria shown in Table 2.1.

Table 1.1: Prioritization Criteria

S/No	Prioritization Criteria	Weight
1.	Enhances Value Chain and Linkages to BETA	3
2.	Pursuant to a Cabinet/Presidential Directive	3
3.	Status (Advanced i.e at Parliament, Cabinet, AG's or awaiting AG's or Cabinet's consideration)	3
4.	Part of global and regional legal requirements or mandatory compliance with global best practice	2
5.	Furtherance of and implementation of the Constitution	2
6.	Priorities of MTPIV of Vision 2030	2
7.	Status (Medium i.e. validation, public participation, stakeholder engagement)	2
8.	Commitment in the FY 2023/24 Performance Contract	1
9.	Furtherance of the MDA's core mandate	1
10.	Status (Early stage i.e Conceptualization, Drafting Stage)	1

The above weighting resulted into three major categorizations as shown in Table 1.2 together with their proposed delivery timelines:

Table 1.2: Priority Categories:

Priority Ranking	Aggregate Weight Range	Delivery Timelines
Immediate	13 - 17	6 Months
High	9 - 12	12 Months
Medium	1 - 8	24 Months

For each of the proposed policies, legislation and statutory instruments, three categorizations based on the prioritization criteria shown in Table 1.1 were produced. Table 1.3 shows a summary of the prioritization of the 720 GLA items submitted by the MDAs into the three priority categories illustrated in Table 1.2.

Table 1.3: Summary of GLA prioritization

Type of Intervention	Priority Category			Total Number of Interventions By Type
	A. Immediate	B. High	C. Medium	
Legislative Initiatives	18	110	119	247
Policies	13	55	120	188
Statutory Instruments	15	126	144	285
Total Number of Interventions By Priority Category	46	291	383	720

1.2.1 Prioritization of Policy Initiatives

Table 1.4 shows the three (3) priority bands for the policy initiatives reported by the MDAs.

Table 1.4: Prioritization of policy initiatives by Clusters

Cluster	State Department	Proposed Policy Intervention
Immediate Priority Category		
Environment & Natural Resources	Blue Economy and Fisheries	Kenya Fisheries Policy 2023 (formerly National Oceans and Fisheries Policy 2008).
	Environment and Climate Change	Meteorology Policy
Finance & Production	Crop Development	Coffee Industry Policy
		National Agriculture Mechanization Policy

1.3 Prioritization Scores and categories

The prioritization into three priority bands of the reported GLA initiatives depicted in the three tables above – Tables 1.4, 1.5 & 1.6 resulted from the scoring against the set of criteria.

Detailed prioritization matrices providing the individual scores and categories of each proposed GLA initiative are presented in **Annexes IV, V & VI** for the each of the lists of proposed policies, legislations and statutory instruments respectively.

PART TWO: IMPLEMENTATION AND COORDINATION FRAMEWORK

The Chapter outlines the framework under which the GLA is to be coordinated. This includes the organizational inter-relationships within the National Executive and with Parliament as well as the cabinet approved framework for the coordination of government business specific to the GLA and Parliamentary Liaison.

2.1 The Office of the Prime Cabinet Secretary

The Office of the Prime Cabinet secretary was established with the mandate to *inter alia*, assist the President and the Deputy President in the coordination of Government Ministries and State Departments and; chair and coordinate the national Government Legislative Agenda in consultation with and transmission to the Party/Coalition Leaders in Parliament. The Prime Cabinet Secretary gives the overall policy direction in the coordination of the GLA and parliamentary liaison.

OPCS is supported in the GLA coordination function by the State Department for Parliamentary Affairs.

2.2 State Department for Parliamentary Affairs

SDPA supports the Prime Cabinet Secretary in the coordination of the GLA and Parliamentary Liaison. In appreciation of the role that policy plays in defining strategies on national development priorities and identifying related areas for legislative review, SDPA also has policy coordination and strategy as a critical component of its mandate. The SDPA functions are granularized as below -

1. Co-ordinate the identification, prioritization and enactment of policies and legislation necessary to achieve the national development Agenda;
2. Provide timely guidance and direction on the appropriate measures to be undertaken to address challenges constraining the realization of the legal framework, necessary to achieve the national government development Agenda;
3. Oversight to ensure public participation and the involvement of other stakeholders in the development of policies and legislation by MDAs;
4. Monitor and evaluate the progress of policy and legislative initiatives for the timely realization of the government development agenda;
5. Co-ordinate parliamentary liaison services across MDAs;
6. Facilitate seamless interaction between the Executive and Parliament to ensure effective and harmonious dispatch of Government business in Parliament;
7. Collaborate with MDAs and other relevant institutions to build capacity on policy and legislation making processes and parliamentary liaison; and
8. Collaborate with Parliament to enhance accountability of MDAs.

The State Department comprises of two (2) technical Directorates, namely: Legislative and Parliamentary Affairs and Policy Coordination and Strategy.

2.3 The Steering Committee on the Government Legislative Agenda and Parliamentary Liaison

In its meeting of 31st January, 2023, the Cabinet approved the establishment of the Steering Committee on the Government Legislative Agenda and Parliamentary Liaison. Pursuant to a Cabinet Directive of the same meeting, the Prime Cabinet Secretary issued Guidelines dated March 2023 on the Framework for Coordination and Supervision of Government Business across MDAs. The Guidelines provide for, *inter-alia*, the GLA Steering Committee's establishment, composition, functions, sub-committees, secretariat and meetings.

The Steering Committee supports the PCS and the SDPA in their mandates and represents the WoG approach to the coordination of the GLA and Parliamentary Liaison; with it the Steering Committee is vested with the following additional mandates -

1. Prepare accurate and timely progress reports for presentation to His Excellency the President; and
2. Any other function ancillary to the above as may be directed by His Excellency the President.

The Steering Committee consists of -

- i. The Prime Cabinet Secretary as the Chairperson;
- ii. The Attorney General as the Vice Chair of the Committee;
- iii. Cabinet Secretary for the National Treasury and Economic Planning;
- iv. Cabinet Secretary(s) responsible for the Ministry under which the legislative agenda item emanates from;
- v. Other Cabinet Secretaries to be co-opted as and when the situation warrants;
- vi. The Principal Secretary, State Department for Parliamentary Affairs as the Secretary of the Committee;
- vii. Chief Executive Officers of State Corporations to be co-opted on a need basis.

The SDPA provides secretariat services to the Steering Committee, assigning such support staff as may be necessary for the Steering Committee to effectively perform its functions.

2.4 Liaison with Parliament

The Constitution of Kenya vest in Parliament the mandate of lawmaking, oversight and representation of the people. Article 94(5) of the Constitution provides that "No

person or body, other than Parliament, has the power to make provision having the force of law in Kenya except under authority conferred by this Constitution or by legislation.” Liaison with Parliament is therefore critical in delivering the GLA.

Liaison with Parliament for the effective dispatch of the GLA is principally through the Offices of the Coalition/Party Leaders in both Houses of Parliament.

2.5 Tracking and Reporting

As part of the execution of the day to day coordination function, the SDPA is overseeing the development of a framework for monitoring, tracking and reporting of the implementation of the GLA. The framework consists, amongst others, the development and sensitization of -

- a) The Guidelines for the process of development of policy and national legislation;
- b) A template for quarterly reporting on the progress of development of the policy and legislative initiatives;
- c) The Legislative Agenda Information Tracking System; This system shall allow for the digital reporting of progress of the GLA.

The framework shall enable the preparation of the periodic reports on the status of implementation of the GLA.

2.6 Supplementary GLA

This document consists the comprehensive inventory of all reported policy and legislative initiatives that were compiled after the inaugural GLA roundtables. It is however appreciated that circumstances may necessitate the formulation of an initiative not noted in the initial GLA. In such eventuality, the Principal Secretary of the respective MDA shall notify OPCS of such an initiative at the conceptualization stage. The Initiative shall constitute part of the Supplementary GLA.

Notice of the additional initiatives shall be addressed to:-

Principal Secretary
State Department for Parliamentary Affairs
Office of the Prime Cabinet Secretary
Railways Headquarters
Off Haile Selassie Avenue
NAIROBI

Annex I: List of Proposed Policies Presented to the GLA Committee

S/No.	Cluster	State Department	Proposed Policies	Objectives/Justification	Status

55	Governance & Public Administration	Defence	Kenya Space Agency Policy, 2023	To provide Status Updates on The Draft Kenya Space Policy 2023	Stakeholder / Public Participation Stage
56	Governance & Public Administration	Devolution	Policy of Devolved System of Government, 2022	The State Department developed the Policy on Devolved System of Government in 2016. The Policy been the policy guide on the implementation of devolved governance in Kenya. However, a number of emerging challenges have threatened the smooth implementation of devolution to the detriment of well-being of the citizens necessitating its review. The review of the policy will identify challenges hampering smooth implementation of review and recommend interventions to address them. The review will ensure that devolution works as envisaged in the Constitution to in providing a supportive framework in the realization of the country's development goals including BETA.	Initiation Stage

S/No.	Cluster	State Department	Proposed Policies	Objectives/Justification	Status
57	Governance & Public Administration	Devolution	Develop Intergovernmental Relations Dispute Resolution Policy	The Constitution established two levels of government which are distinct and interdependent. It also requires the two levels and county governments to consult and cooperate in performance of their functions. The distinct nature and the requirement for consultation and cooperation creates room for disputes. These disputes if unresolved could negatively affect service delivery as parties compete for supremacy. The policy will provide guidance on resolution of disputes between the two levels of government and between county governments while maintaining their functional distinctiveness. The policy will enhance relations between the two levels resulting in a conducive environment for implementation of BETA priorities.	#N/A

S/No.	Cluster	State Department	Proposed Policies	Objectives/Justification	Status
58	Governance & Public Administration	Devolution	Develop a policy on Local Economic Development	The policy endeavors to address the country's critical challenges such as poverty, governance, unemployment and slow economic growth. The LED policy is in line with the BETA priority areas of agriculture, healthcare, industrialization, micro, small and medium enterprise economy (MSME), housing and settlement, digital and creative economy. The policy therefore offers opportunities for the development of sustainable investments in order to build local knowledge economies and transition economically marginalized areas into the mainstream economy. The adoption of the local systems of innovation to guide the implementation of this policy, will unlock value in local economic clusters, strengthen local value chains and local sectors, and enhance the capacity of the innovation system to generate knowledge and innovations that can translate into socio-economic development required in a local economy.	Initiation Stage
59	Governance & Public Administration	Diaspora Affairs	Review Diaspora Policy 2014	To align with BeTA and other frameworks and with the Mandates of SDDA	Stakeholder / Public Participation Stage

Operation of RE projects for electricity generation. Renewable Energy Resources Advisory Committee (RERAC). Licensing for exploitation of RE resources.</p> <p>Promotion of development and use of RE including the Energy Centers and Carbon Credits.</p> <p>Renewable energy resource data</p>	Initiation Stage
167	Infrastructure	Energy	Energy (Abandonment and Decommissioning) Regulations	<p>Provides for the requirements and responsibilities for abandonment and decommissioning of energy infrastructure to ensure protection of persons, property and the environment. Provides for the establishment of a mechanism for adequate financial resources and ensuring that they are available when necessary, for safe abandonment and decommissioning of energy infrastructure. Provide the guidelines on the nature, type and format of data,</p>	Initiation Stage

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				<p>information and statistics to be provided to the Authority by Licensees in abandonment and decommissioning. Provide for the procedures for monitoring of site during and after abandonment and decommissioning. Sets out the minimum requirements for preparing an abandonment and decommissioning plan.</p> <p>Sets out what would constitute defaults by Licensees in abandonment and decommissioning of energy infrastructure. Prescribe penalties to be imposed on defaulters in abandonment and decommissioning of energy infrastructure. Provide for the procedure, timelines and documentation required in abandonment and decommissioning of energy infrastructure.</p>	
168	Infrastructure	Energy	Energy (Public Rights of way) Regulations	<p>The regulations shall provide guidelines for:</p> <p>entry into private land for purposes of survey, inspections, maintenance and repair of energy infrastructure.</p> <p>-undertaking work on road and rural reserve, Airport, National reserve and Heritage sites, rivers, Canals and Harbours, forests and railway</p>	Initiation Stage

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				lines. declaration of energy resource areas compensation for damages resulting from development of energy infrastructure. Energy infrastructure wayleave corridor widths and safety clearances.	
169	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Information and Statistics) Regulations	These regulations: (a) Expand the requirement to provide statistics by all players in the petroleum supply chain. (b) Ensure timely and accurate acquisition of operational stocks data in the country to enhance decision making where necessary. (c) Improve safety in the petroleum industry by ensuring reporting and investigations of all accidents and incidents occurring along the supply chain. (d) Avail information to the National and County Governments to be used for planning and forecasting	Presented to the Cabinet/ Parliament/ Attorney General
170	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Strategic Stock) Regulations	The Regulations a) Ensure the country's security of supply of petroleum products is guaranteed in the event of a major disruption of the petroleum supply chain. b) Explicitly define the purpose of strategic stock as a means of mitigating the impacts of emergency supply.	Presented to the Cabinet/ Parliament/ Attorney General

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				<p>c) Change the number of days of strategic stocks to align with the country's requirements and supply risk.</p> <p>d) Provide for the import, storage and management of Petroleum Product Strategic Stock.</p> <p>e) Assign responsibility for management of Petroleum Product Strategic Stock.</p> <p>f) Provide for the financing of Petroleum Product Strategic Stock.</p> <p>g) Determine the process of ascertaining the level of reserve.</p> <p>h) Provide for the process of utilization of the Petroleum Product Strategic Stock.</p> <p>i) Provide for the process of appointment of storage facilities for the Petroleum Product Strategic Stock; and</p> <p>j) Provide for the appointment of administrative unit used for the management of the Petroleum Product Strategic stocks.</p>	
171	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Product Quality Management) Regulations	<p>These regulations:</p> <p>a) Define sampling and testing requirements for all products along the supply chain.</p> <p>b) Regulate non-compliant sites or tankers.</p> <p>c) Prescribe for marking of illuminating</p>	Presented to the Cabinet/Parliament/Attorney General

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				kerosene. d) Prescribe for marking of export petroleum products. e) Prescribe penalties for non-compliance.	
172	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Minimum Operational Stock) Regulations	The regulations: i. Ensure that the country's security of supply of petroleum products is guaranteed in the event of temporary disruption of the supply chain. ii. Define which petroleum products are to be maintained as minimum operational stock. iii. Define the minimum operational stock holding days; and iv. Provide for offences and penalties related to failure to adhere to minimum stock requirements.	Presented to the Cabinet/ Parliament/ Attorney General
173	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Jetties) Regulations	These regulations: a) Sets out the guidelines for construction of a marine petroleum jetty. b) Details the form and validity of the construction permit. c) Defines the obligations of the marine petroleum jetty owner and the designated marine jetty operator. d) Sets out the process of license application and renewal for marine jetty operators. e) Defines the obligations of the marine petroleum jetty users. f) Compute tariffs for	Stakeholder / Public Participation Stage

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				<p>marine petroleum jetty g) Details obligation of marine jetty operators, users, OMCs and owners to Authority with regards to providing information and data.</p> <p>h) Ensures compliance with environmental, health and safety standards.</p> <p>i) Ensures compliance with security standards and guidelines.</p> <p>j) Ensures the common jetty pipeline has line fill</p> <p>k) Describes vessel scheduling and functions of the vessel scheduling committee.</p> <p>l) Specifies the petroleum product quality. m) Provide for complaints and dispute resolution mechanisms.</p> <p>n) Provide for appropriate penalties for offences committed in relation to jetty regulations.</p>	
174	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Importation -Quota Allocation) Regulations	<p>These Regulations: Give priority to purchase petroleum products.</p> <p>Set commercial terms and freight costs.</p> <p>Reallocate petroleum import quota.</p> <p>Ensure compliance with petroleum product quota. Put in place mechanisms to consolidate OTS nominations for Quota holder and that of independent stations</p>	Stakeholder / Public Participation Stage

S/No	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
175	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Common User Petroleum Logistics Facilities) Regulations	<p>These regulations:</p> <p>a) Define the licensing requirements for common user petroleum logistics facilities. b) Designate common-user petroleum logistics facilities. c) Provide for enforcement of principles of open access for common-user petroleum logistics facilities. d) Determine the custodial arrangements of petroleum products held at common user petroleum logistics facilities. e) Prescribe the nature of contractual arrangements between owners of common user petroleum logistics facilities and the contracted users. f) Prescribe requirements for reporting and investigation of accidents relating to common-user petroleum logistics facilities. g) Compute tariffs and allowable losses for common-user petroleum logistics facilities. h) Provide for complaints and dispute resolution mechanisms relating to common-user petroleum logistics facilities. i) Provide for appropriate penalties for offenses committed in relation</p>	Stakeholder / Public Participation Stage

				to operations of a common-user petroleum logistics facilities.	
176	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Licensing of Businesses and Facility Construction) Regulations	<p>These regulations:</p> <p>a) Ensure that establishment of retail petroleum facilities is as per the set standards and conforms to both local and international best practices.</p> <p>b) Improve safety to the workers, users and the general public.</p> <p>c) Regulate the development of new retail petroleum facilities and limit excess capacity.</p> <p>d) Promote fair competition amongst retail petroleum businesses by instituting clear licensing procedures.</p> <p>e) Ensure compliance with environmental, health and safety standards and give effect to Government's policy on local content.</p>	Stakeholder / Public Participation Stage
177	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Retail Facility Construction and Licensing) Regulations	<p>These regulations:</p> <p>a) Ensure that establishment of retail petroleum facilities is as per the set standards and conforms to both local and international best practices.</p> <p>b) Improve safety to the workers, users and the general public.</p> <p>c) Regulate the development of new retail petroleum facilities and limit excess capacity.</p>	Stakeholder / Public Participation Stage

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				d) Promote fair competition amongst retail petroleum businesses by instituting clear licensing procedures. e) Ensure compliance with environmental, health and safety standards and give effect to Government's policy on local content.	
178	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Licensing Road Transportation Business Road Tankers and Drivers) Regulations	The Regulations a) provide for a licensing and certification framework for petroleum road transportation business, road tankers and drivers. b) Ensure that road tankers conform to the required technical and operational standards C) Define and ensure compliance with requirements imposed on petroleum road tanker drivers. d) Promote fair competition amongst petroleum road transportation businesses by developing clear and consistent licensing procedures e) Ensure compliance with environmental, health and safety standards.	Stakeholder / Public Participation Stage
179	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Lubricants Facility Construction and Business Licensing) Regulations	These regulations: a) Ensure that establishment of lubricants facilities is as per the set standards and conforms to both local and international best practices.	Stakeholder / Public Participation Stage

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				b) Improve on the safety of workers, users and the general public c) Regulate the development of new lubricants facilities. d) Promote fair competition amongst lubricants facilities businesses by instituting clear licensing procedures. e) Ensure compliance with environmental, health and safety standards and giving effect to Government's policy on local content	
180	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Upstream Petroleum Access To Land) Regulations	Regulations lay down detailed requirements for the safeguarding of efficient, safe, reliable and coordinated system operations of the Kenya National Transmission System and Interconnected Transmission System including: principles concerning operational security. Issuance of directions by the System Operator to Operators of a generating plant, Significant Grid Users, substation, transmission or distribution system. coordination and data exchange between the System Operator and Transmission Network Service Providers, Transmission System Operators, Licensees and Users, in operational	Initiation Stage

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				planning and close to real-time operations. training and certification of system operations personnel. outage coordination. scheduling between the System Operator and other Transmission System Operators. establishment of a framework for Ancillary Services.	
181	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Upstream Petroleum Cost Management) Regulations	These regulations:- a) Provide means of administering the power vested in the Cabinet Secretary under the Petroleum Agreement and a Non-Exclusive Exploration permit, the Act, and any other relevant Law b) Harmonize and standardize its application throughout petroleum operations in monitoring petroleum cost c) Promote consistency and standardization in presentation and reporting of petroleum cost reporting under a petroleum agreement and monitoring by the Authority d) Ensure accountability, transparency and the effective, economic and efficient utilization of petroleum resource	Initiation Stage
182	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Upstream Petroleum Operations) Regulations	These regulations:- a) Provide for the requirements for contractors to provide an annual work program and	Initiation Stage

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				budget b) Provides for the process of issuance of various operational permits such as drilling permit, production permits and well abandonment permits amongst others	
183	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Midstream Crude Oil And Natural Gas Pipeline And Storage Operations) Regulations	These regulations:- a) Provide for roles and responsibilities with regard to authorization of a midstream project and issuance of operating licences b) Provides for the process of land acquisition for the midstream project	Initiation Stage
184	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Midstream Crude Oil And Natural Gas Pipeline And Storage Operations) Regulations	These regulations:- a) Provide for roles and responsibilities with regard to authorization of a midstream project and issuance of operating licences b) Provides for the process of land acquisition for the midstream project	Initiation Stage
185	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Licensing of Crude Oil Transportation by Road) Regulations	These regulations:- a) Prescribe the requirements for Issuance of a Crude Oil Road Transport licence and a Crude oil Road Tanker permit b) Prescribe the requirements for certification of Crude Oil Tanker driver	Initiation Stage
186	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Upstream and Midstream Environment, Safety And Health) Regulations	These regulations:- a) Provide for safety requirements during in upstream petroleum operations b) Prescribe the requirement to comply with	Initiation Stage

S/No .	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
				approved standards and best industry practice in Design and construction of upstream petroleum facilities c) Prescribe minimum requirements for ensuring the health of workers is observed in upstream petroleum operations	
187	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Licensing of Crude Oil Transportation by Road) Regulations	These regulations:- a) Provide for safety requirements during in upstream petroleum operations b) Prescribe the requirement to comply with approved standards and best industry practice in Design and construction of upstream petroleum facilities c) Prescribe minimum requirements for ensuring the health of workers is observed in upstream petroleum operations	Initiation Stage
188	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Local Content) Regulations	These regulations:- a) Provide for establishment of local content requirements to which a contractor, subcontractor, licensee, or any other entity carrying out upstream, midstream and downstream petroleum operations shall abide to. b) Provides for the requirement of provision of a local content plan c) Provides for reporting and monitoring requirements for the local content plan	Initiation Stage

S/No	Cluster	State Department	Proposed Statutory Instruments	Objectives/Justification	Status
189	Infrastructure	Energy(Petroleum Regulations)	The Draft Petroleum (Upstream Petroleum Rights Management and Administration) Regulations.	These regulations:- a. Provide for roles and responsibilities regarding opening of areas for petroleum activities and Constitution of blocks b. Provide for the process of licensing suitable areas or blocks c. Provide for terms of validity of a licence issued under the regulations d. Provide for the requirements and procedures for unitization of areas or blocks e. Provide for the circumstances that would result in the termination of rights for a block	Initiation Stage
190	Infrastructure	Energy(Petroleum Regulations)	Petroleum (Consolidated Fund) Regulations	These regulations establish a consolidated petroleum fund whose purpose shall be: a) Fund the establishment and operations of the petroleum strategic stocks reserves. b) Fund the infrastructure for the petroleum strategic stocks reserves. c) Fund the development of Petroleum Infrastructure. d) Support operations of the Fund. e) Petroleum sector disaster mitigation and response. f) Early decommissioning of common user petroleum installations. g) Efficiency and	Initiation Stage
